Starfleet's most sacred commandment has been violated. Its most honored captain is in disgrace. Its most celebrated starship in pieces, and the crew of that ship scattered among the thousand worlds of the Federation...

In the Mirror Universe the tyrannical Emperor Tiberius, once captain of the ISS Enterprise, had great success turning captured alien weaponry to his advantage. Until, that is, his failure to seize the tantalising advances of the ancient First Federation. Now, in the more peaceful universe of the United Federation of Planets, Tiberius sees his second chance. And a new ally will help him take it - his alter ego for whom he has nothing but contempt - Starfleet Captain James T. Kirk. Honorable, idealistic and decent, James T. Kirk is many things Tiberius is not. But he is also a man deeply in love with his wife - and Teilara is dying. To save her life, Kirk is prepared to compromise his ideals and enter into his most dangerous alliance yet. Battling Captain Jean-Luc Picard and a new generation of Starfleet heroes, Kirk must guide Tiberius to a long-abandoned First Federation base which conceals a power so great it will enable Tiberius to conquer the mirror universe - and his own. But on that journey Kirk uncovers long-hidden secrets that raise the stakes far beyond the mere survival of family and friends. At the heart of their quest, something else is waiting: an object from a civilisation whose technology is far more advanced than any Kirk or Tiberius could hope to acquire, placed there for Kirk's eyes only by mysterious aliens who appear to have influenced life within the galaxy over eons of time - a message from the Preservers...

If you think you know how it all began, think again... Young Jim Kirk wants nothing to do with Starfleet, and never wants to leave Earth. In the summer of 2249, he's a headstrong seventeen-year-old barely scraping by in San Francisco, haunted by horrific memories from his past. In the same city, a nineteen-year-old alien named Spock is determined to rise above the emotional turmoil of his mixed-species heritage. He's determined to show his parents he has what it takes to be Vulcan -- even if it means exposing a mysterious conspiracy at the heart of the Vulcan Embassy, stretching to the farthest reaches of the Federation's borders. There, a chilling new threat has arisen to test the Federation's deepest held belief that war is a thing of the past and that a secure future can be forged through peaceful means alone. But it is in San Francisco, home to Starfleet Academy, where that threat will be met by two troubled teenage boys driven to solve the mystery that links them both. In time, the universe will come to know these young rebels as Captain James T. Kirk and Mr. Spock...two of the Federation's greatest heroes. Yet before they were heroes, they were simply conflicted teenagers, filled with raw ambition and talent, not yet seasoned by wisdom and experience, searching for their own unique directions in life -- a destiny they'll discover on one fateful night in San Francisco, when two lives collide, and two legends are born. Star Trek: Academy -- Collision Course sets the stage for an exciting new era of Star Trek adventure, and for the first time reveals Kirk and Spock as they were, and how they began their journey to become the Kirk and Spock we know today.

The Mirror Universe is a dark and twisted reflection of our own, where all that is noble and compassionate is instead cruel and barbaric. Now our universe has been invaded by that other reality's most feared tyrant: the dreaded Emperor Tiberius, the Mirror Universe counterpart of James T. Kirk. Just as Kirk survived his own era to live into the 24th century, so has Tiberius returned from the past to menace a new generation of Starfleet heroes. And only Kirk can stop him. With Spock, McCoy, and Spotty at his side, and teamed Jean-Luc Picard and the valiant crew of the U.S.S. Enterprise™ NCC-1701-E, Kirk is propelled into his most personal and dangerous mission yet as he fights to uncover the secret of Tiberius' return and learn the terrible truth behind the madman's nightmarish plans for the Federation. But how can he defeat an enemy who knows Kirk's mind as well as he knows his own?

While Kirk and his crew struggle to free scientist Zefram Cochrane from captors, ninety-nine years in the future Jean-Luc Picard must rescue a mysterious individual who holds the key to the Federation's ultimate survival, a mission that draws past and future together. Reissue.

At the climactic close of the TV series of Star Trek Deep Space Nine the forces of the Federation and their allies finally overcame the Dominion invaders and averted the threat of totalitarian rule. And yet ... the future of the Alpha Quadrant is by no means as safe as it seems. Deep within the bowels of Deep Space Nine is a secret that has been kept for seven years. When it is uncovered the very heart of the Federation will be ripped apart, succeeding where the shapeshifting Founders failed. The destruction of the Federation is at stake. Only the crew of Deep Space Nine can stop it - but will they be in time?

The Enterprise-E, under the command of Captain Jean-Luc Picard, is exploring an unstable region of space on a scientific mission of vital concern to Starfleet when they discover the last thing they ever expected to find: a lonely, battle-scarred vessel that is instantly recognizable to every member of Picard's crew. Five years after being lost with all hands in the Delta Quadrant, the Starship Voyager has come home! The commander of Voyager, one Tom Paris, explains that Captain Kathryn Janeway and half of the original crew is dead, but if that is true, who is the mysterious woman who has kidnapped Kirk back on Earth, pleading with him to assist her against a threat to the entire Federation? All is not as it seems, and soon Kirk is forced to confront the hideous consequences of actions taken more than a hundred years prior, as well as his own inner doubts. After years of quiet and isolation, does he still have what it takes to put things right-and join with Captain Picard to save the lives of everyone aboard a brand-new Enterprise? An unforgettable saga peopled by old friends and ancient enemies, Star Trek: Spectre propels Kirk on a journey of self-discovery every bit as harrowing as the cataclysmic new adventure that awaits him.

A Tenth Anniversary Tribute

Star Trek: Captain's Glory

After narrowly averting a Roman and Romulan civil war, Captain James T. Kirk is determined to finally raise his son, Joseph, while investigating Spock's death, until Admiral Janeway requests Kirk's help to stop a new threat to the Federation.

When Ambassador Spock is assassinated during a Romulan peace rally, a retired James T. Kirk, accompanied by his eight-year-old son Joseph and Dr. McCoy, heads for Romulus to investigate, where he encounters a seductive enemy from his past, a potential interstellar war, and a heartrending choice between the life of his son and galactic peace.

The Star Trek: Signature Edition series continues with this thrilling adventure featuring Commander Spock, Captain Kirk, and the U.S.S. Enterprise. Of all the experiences shared by Captain Kirk and the crew of the Starship Enterprise™ during their first five-year mission, two were among the most perilous: a journey to the nonphysical realm of Transition where the massive computer known as Memory Prime was situated, and the nightmarish mission to Talin IV, a world poised on the brink of destruction that Kirk was forbidden to save. In the twenty-first century, a handful of years before a sentient artificial life-form would be allowed to earn a Starfleet commission, the Federation considers the use of self-aware artificial intelligences to be little more than slavery, except for the immense computer system of Memory Prime—the key hub in the Federation's vast network of interstellar library planets. There, the A.I.s known as Pathfinders inhabit Transition—a virtual world so different from our universe that the A.I.s themselves debate whether or not the physical universe is real. But when an ancient enemy reaches out from the shadows of Vulcan's darkest history and threatens to destroy the Federation, Spock must risk his career, and his life, to enter the Pathfinders' realm. Technologically and politically, Talin IV is little different from late-twentieth century Earth. But as a series of mysterious events pushes that world closer to self-annihilation, the Prime Directive prevents Captain Kirk and his crew from doing anything to prevent it. When the worst appears to happen and Kirk takes desperate action to give the Talin a chance to step back from the nuclear abyss, Talin IV is consumed by radioactive fire. Now, with a world destroyed and the Enterprise dead in space, the careers of Kirk and his crew are over. Disgraced and despised, Kirk has only one chance to redeem himself and his crew: Somehow, he must make his way back to Talin IV and discover what really happened, even if it means proving that a world died because he broke Starfleet's most sacred law.
