Human rights are axiomatic with liberal freedom. Yet more rights for women, sexual and religious minorities, has had disempowering and exclusionary effects. Revisiting campaigns for same-sex marriage, violence against women, and Islamic veil bans, *Gender, Alterity and Human Rights* lays bare how human rights emerge as a project of containment and unfreedom rather than meaningful freedom. Kapur provocatively argues that the futurity of human rights rests in turning away from liberal freedom and towards non-liberal registers of freedom.

Anna Westover had no idea at seventeen, still grief-stricken from the loss of her grandmother, and back

living with her horrible family, that Victor Spofford, a young charismatic Baptist preacher, would be the wrong choice, the worst choice. On her grandmothers insistence she refused to even date the boy she always loved, simply because he wasn't Baptist. Anna's wedding was a dream; her new life in western Massachusetts a wondrous challenge until mysterious letters began to arrive. Then Victor changed . . . or was it that he finally revealed his true nature? No one would believe that he abused her. He never hit at least not intentionally. And as the preacher's wife, she could confide in no one. To others, he was gorgeous, enlightened and dynamic. He knew the perfect words to give comfort or guidance. He brought scores of sinners to the Lord with his woeful childhood tales. Who was she but his meek wife, lovely yet subdued, who sat in her accustomed front-row pew each Sunday morning, gazing up at him in adoration? He was always sorry later: crying, begging forgiveness. And she wanted to believe him. He was so pitiful in his sorrow. But after he lost his job and they returned to New Hampshire, her hopes are firmly and completely crushed when another letter arrives, and she uncovers his lies. Desperate for comfort, she turns to another man. Then the violence escalates and she must take a stand.

"Once Upon a Fishbowl" is an imaginative book - a parable, an allegory - which playfully captures a very human story, but one which is set in the marine world of fish. The story parallels the biography of Serena Williams, the tennis player, as it recounts the unfolding life of a blue fish named "Selena Gilliums" and her quest to be the ocean-wide fish-champion in the game of "Bubble Ball", a game fish play in water with their fins using oily air bubbles. And why "blue" fish? Because the ocean of Aria's imagination has fish of 2 colors, blue and yellow. Just as humans consciously and subconsciously engage in discrimination based on skin color, the fish in this world discriminate based on fin colors - they engage in "fishism". The book skillfully traces the long struggle against fishism, fish slavery and the fight for Civil Rights in the fictional ocean country called "The United Shoals of Americlam" while weaving the athletic rise in contemporary times of Selena Gilliam. It celebrates the journey of tribulations, frustration and eventual triumph of a larger-than-whale spirit of Selena, who rises above all the obstacles to become the fish which was the GOAT - Greatest of All Time - in Bubble Ball... The book does not merely trace Serena's life or past history, though. It showcases many issues which are as relevant today as a hundred years ago - gender discrimination, religious discrimination, class discrimination, our fights against fellow humans based on stereotypes and nationality, our blatant plundering of environment, our pollution footprint... a very sobering reminder from a fish narrator... Even the book's tagline, "Are Fish Racist? Are they following human footsteps?" is a haunting reminder to us all about our responsibility (and irresponsibility) toward nature and all which surrounds us. The book is replete with delightful puns, a very sophisticated use of English language and a large number of fish drawings sketched by the author and scattered throughout the book. There are also these cute explanatory notes for humans who may not know the inner workings of the marine world, and a comical glossary. This metaphorical biopic is a wonderful work of art and creativity from a very young, precocious author. It will inspire people of all ages to reflect on the importance of overcoming our prejudices, and rising above our superficial differences, to truly be "human".

At the core, it doesn't matter what you believe governs the fate of man and Earth, what matters is that humans, as a global society, build a future that is sustainable and peaceful. This is the ultimate human evolutionary development, this is our challenge. By tracing our existence from where we began to what we have become today, this book explores the evolution and, should we continue on our current path, the subsequent possible obsolescence of human beings. Far from a doomsday tome, The Fishbowl Principle challenges readers to expand their worldview. We need to change our measure of a successful life from simply existing to prospering. The authors refuse to accept that life as we exist today is "as good as it gets." We argue that humans have reached a fragile tipping point; and that instead of fragmenting and isolating ourselves in a future of despair, we can and will work together to an even higher apex. As a human race, we examine what can be achieved if we look to our similarities instead of our differences. If we could harness communication as a powerful and cost effective tool to bring us together and educate ourselves in a way that fosters sustainable and responsible population growth, the positive transformation to our lives would be immeasurable. Whether you exist today as a peasant in a tribal setting or as an urban dweller we explore fostering a sense of global community based on common ground, not just niche existence. We present tangible alternatives and pose thought-provoking questions. Our vision is a collaborative one, and requires your participation. A path back to evolution starts with you, and includes all of us.

Do you live in the public eye--a fishbowl? Tom Rogers draws from 15 years experience as a parish pastor to provide uplifting, inspirational messages containing both empathy and humor for those who live out their lives in front of others.

Lorna Dobson knows firsthand the struggles and joys of being married to a pastor—and the questions, not the least of which is, “ What is a ‘ pastor's wife, ’ anyway? ” As her poll of hundreds of women reveals, the wife of a minister is rarely the piano-playing, committee-leading stereotype. With humor, disarming genuineness, personal stories, and wisdom rooted in Scripture, Dobson cuts through the labels. “ How I live has little to do with whether my husband is a pastor; rather, my life reflects my growth, or lack of it, as a Christian. ” In this revised edition of I ’ m More Than the Pastor ’ s Wife, she includes new perspectives as a grandparent, soon-to-be empty-nester, and speaker. Here are frontline insights on · Making friends and cultivating personal support outside the church · Learning to handle expectations and pressures · Balancing time and using your gifts · Supporting your husband and growing closer to him · Prioritizing prayer for your husband, family, and church · Knowing your capabilities and limits · Dealing with “ problem people ” and church conflicts . . . and much more!

Authentic Living in a Fishbowl World

A goldfish named Ian is falling from the 27th-floor balcony on which his fishbowl sits. He's longed for adventure, so when the opportunity arises, he escapes from his bowl, clears the balcony railing and finds himself airborne. Plummeting toward the street below, Ian witnesses the lives of the Seville on Roxy residents. There's the handsome grad student, his girlfriend, and the other woman; the construction worker who feels trapped by a secret; the building's super who feels invisible and alone; the pregnant woman on bed rest who craves a forbidden ice cream sandwich; the shut-in for whom dirty talk, and quiche, are a way of life; and home-schooled Herman, a boy who thinks he can travel through time. Though they share time and space, they have something even more important in common: each faces a decision that will affect the course of their lives. Within the walls of the Seville are stories of love, new life, and death, of facing the ugly truth of who one has been and the beautiful truth of who one can become. Sometimes taking a risk is the only way to move forward with our lives. As Ian the goldfish knows, "An entire life devoted to a fishbowl will make one die an old fish with not one adventure had." Bradley Somer's Fishbowl is at turns funny and heartbreaking and you will, no doubt, fall in love with his unforgettable characters.

The book is adorable, highly entertaining and describes how a conductor interacts with the

musicians to create a magnificent performance, The composition called for a Percussionist to dip a vibrating Gong in and out of a tub of water to create a modulation of the Gong sound. The Stage Crew, who had to drag the tub of water on and off the stage next to the Concert Master for every rehearsal and performance were not very happy about this. Their idea of "getting even" was to place a goldfish in the tub of water right before the performance. When the Percussionist went on stage just before the performance was to begin and saw the goldfish in the tub, he looked back at the percussion section smiling as he pointed to the tub. We had no idea what he was smiling about. Meanwhile the Stage Crew was having a good laugh as they watched from the wings of the stage. After the performance, the Percussionist told us what happened and explained when the vibrating Gong was placed into the tub the goldfish began to swim rapidly around the tub jumping up and down. By the end of the performance, the goldfish died. But don't be alarmed, in our story the goldfish does not die.

This is no typical undercover story. This is a human story. Whom will you root for? Follow Tee, an undercover cop, as he attempts to infiltrate a deadly set Crips to salvage a neighborhood of innocents held hostage by violence, drug trafficking, and prostitution. Watch him work his way deep into this criminal organization in search of the kingpin, X-Man - a ruthless murderer moving millions of dollars worth of narcotics every month through a poor, ethnic neighborhood. Learn the tricks he used to get inside and feel the dramatic intensity when failure seems imminent. Share in his unexpected compassion for some of these criminals who came from broken homes in poor neighborhoods as you glimpse inside a gang culture rarely seen. And learn creative new ways to break the cycles of violence sadly so prevalent in our modern-day American culture. A different kind of book about addiction, one that calls the bluff of what one critic called "the Oprafication" of drug memoirs. The Phone in the Fishbowl shows all the harrowing truth of addiction, but without the moralizing tale.

Narcissist President. Conservative Vice President. Foreign Officials. Stolen Documents. Winning The Ultimate Prize. "FISHBOWL 45 - The Unpresidential Parody" is the All-American allegory for the Trump/Pence administration. Used car salesman Donald J. Fish, President and CEO of Fishbowl Motors in Queens N.Y. in 1993, and his evangelical VP Mike Buck, collude with foreign officials, shipping stolen cars overseas, to cover a do-or-die bet on the Buffalo Bills to win the Super Bowl. Donnie Fish, a smooth-talking, former corporate raider with a penchant for high-stakes action, and his ultra-right-wing conservative VP Mike, ride high and sink low, going from Wall Street to the mean streets in the aftermath of the Savings & Loan crisis that rocked the nation and led to the worst recession since the Great Depression. Fish and Buck will do anything to get to the top, because it's not if you win or lose...it's if you win! The first book by father/son duo Richard R. Barbour and Joseph R. Barbour, "FISHBOWL 45" portrays Donald Trump and Mike Pence as used car dealers, in this scathing new parody of Trump's America, and the obsession with money, glory and winning at all costs. Exposing the dark greed and thirst for power at the heart of the American dream, "FISHBOWL 45" lays bare the attitudes that brought the US economy to the brink and illustrates the fear found inside a desperate criminal conspiracy. Based on their stage play of the same name, Richard R. Barbour and Joseph R. Barbour proudly present the novel "FISHBOWL 45 - The Unpresidential Parody" and invite you to step inside the Fishbowl.

Monkfish is unhappy and scared about life in the Fishbowl. The game of Hide and Seek that every fish must play, doesn't work for Monkfish any longer. As his "seeking" time gets shorter and Monkfish begins to hide more, he notices a mean, unhappy voice in his head and names it his "Bad Story Voice." Searching for answers to his many questions about happiness, a journey of discovery and insight begins that completely changes life in the Fishbowl for Monkfish. As Monkfish learns and then practices how to "unhook" from the bad stories swallowed, he finally understands what true and real happiness is. And, most of all, what it's like to swim without fear.

Based on events of a true story, author Suzanne Ireland takes you behind razor wire walls to tell the dangerous and romantic story of a young teacher starting work in a men's prison. Fed up with teaching the over-privileged children of spoiled parents, Callie Winters accepts a different kind of job teaching literacy to men in prison. Packing up her beach things and two trained cats, she moves to the desert to start anew. It doesn't take her long to realize all her training isn't enough for working with this school of sharks. As Callie tries to navigate the system of new jargon and a million written rules, she encounters a surprising amount of invisible rules and secrets. Romance in prison is dangerous for staff wishing to keep their paid position. Over-familiarity is sternly warned against, yet female teachers routinely leave their jobs to marry students! Callie is appalled at the very idea. However, surrounded by a sea of men, she is amazed to find herself quickly attracted to more than one man. Feeling like an oddity from the ocean, without the usual freedoms and tools to teach with, Callie struggles to do her best job. Disgruntled bad boy students come to class with agendas that have nothing to do with the one written on the whiteboard each day. The former elementary school teacher is faced with assaults, lockdowns, gang rules, stabbings, illegal tattooing, a prison take-over, as well as several admirers. All of this is in addition to teaching students who gave up on their educations long ago. She does what she thinks is right, even if it means bending a rule or two. Callie will have to deal with a secret of her own being sold by inmates, as well as a paradigm shift from what she used to believe. Please enjoy reading this first book of the Razor Wire Romance series. *A Glossary of mostly prison terms is included in the book. *Be sure to read Chapter One of the sequel book which is located at the end of the book.

Newbery Medal winner Zilpha Keatley Snyder delves into the paranormal in this story of a teenage boy who makes an extraordinary discovery. The whole thing started six years ago when Dion James was around eight or nine. He got a shoe-shining gig on the corner of Palm and Eighth, outside the big glass-and-bronze doors of Alcott-Simpson's department store. With his unruly hair and bad limp from polio, Dion looked like a refugee. Envisioning himself one day working at Alcott-Simpson's, he cleans up his act and starts dressing better. Fourteen-year-old Dion still dreams of working at the luxury department store when he sees a girl with big black eyes and long black hair pursued by store detectives for stealing a sweater. A few days later, Dion is in the store when he hears a scream, and all hell breaks loose. Locked in after the store empties out, Dion sees a familiar figure: the sweater thief. Her name is Sara, and soon she and Dion are eyewitnesses to a bizarre series of events that have no rational explanation. Who is Sara? And why is there a pair of eyes in the mink-lined fishbowl? This ebook features an extended biography of Zilpha Keatley Snyder.

Sometimes it takes a little magic to mend a broken heart. Thomas Fenelli used to be a winner. Then he hit bottom and kept digging. His best friend's a fish. His brother's a philandering bully. And he's haunted by a girl who ghosted him. He's lost his career, his self-respect, and all hope of maintaining his sanity. He's about to give up on life when he meets Noelia, a Spanish beauty who exists only within the walls of the Thomas Paine Cottage Museum in New Rochelle, New York. She leaps from the paintings and into his heart, restoring his self-confidence and teaching him how to move forward. When Noelia's museum is marked for demolition, her existence is threatened. Now Thomas must struggle to rebuild his life while rescuing the spirit who saved him from himself.

When Yoke unwittingly overhears two congressional aides discussing that it is Tennessee's turn, he tells his buddy, Stick, a Howard University basketball star and promising NBA prospect just before they head to a club for a night of fun. After Yoke meets Kaseya, a beautiful woman who has just been fired from her job at the Department of Commerce, he is captivated by her. But his life becomes complicated when his supervisor shows up at his door the next day and tells him he has been identified as the man who overheard a confidential conversation in the restroom. Even worse yet, the FBI wants to talk to him. As Yoke learns that a country that spies on its citizens isn't a safe haven, all hell breaks loose when he discovers that no one escapes the Capitol Hill fishbowl. GIP is the story of a Capitol Hill janitor's experiences after he inadvertently overhears a confidential conversation between two congressional aides.

You're probably breaking the law right now-and don't even know it. Did you know... ? Naples, Italy, enforces laws for what constitutes real pizza, and "pizza police" visit restaurants to crack down on unlawful pies? ? In West Virginia it is a crime to display or possess a red or black flag? ? It is illegal to sell stuffed articles depicting female breasts within a thousand feet of any county highway in California? ? Spherical fishbowls have been banned in Rome since 2004? There are hundreds of bizarre laws that we could be breaking at any moment. What exactly are we doing that we shouldn't be doing, and what happens if we get caught? In this engaging and insightful collection, Nathan Belofsky takes us on a journey of eclectic, unexpected, and bizarre laws from around the world. Written by a practicing lawyer with an eye for his profession's most unusual quirks, *The Book of Strange and Curious Legal Oddities* offers a delightful look at the legal system's peculiarities through the ages. From laws that crack down on how we eat, look, and have sex, to real legal battles involving litigious chimpanzees, you'll start wondering whether you're really the law-abiding citizen you claim to be.

Telling his adventures in growing up blind, praying for a cure and colliding with the unexpected, Ken writes a warm, sometimes funny, and heartrending story.

In this book I explore various subjects many find offensive or uncomfortable: spirituality, art, politics, society, sex, love, and yes, even poetry. It is up to you whether you believe it pornographic. "Fishbowl Pornography" is not defined as explicit images inside a fishbowl. The title is a comment on the fishbowl we have built around ourselves, and how we are often offended when we are dared to look outside of our comfort zone. It is when we expose not only our skin, but something more revealing, our emotions, the emotions which inspire poetry, the poetry which increases our affections.
