Solutions

David Griffiths: Introduction to Electrodynamics

First, solutions to the problems in Griffiths's textbooks are already readily available on the internet, as a cursory search with Google will reveal, so I'm not giving away anything that isn't easily obtained by other means. Many of these solutions are provided by professors for their own courses.

Step-by-step solution: Step 1 of 8 Suppose A and B are two vectors, the dot product of these two vectors will be written as $A \cdot B$. The dot product of the two vectors is the product of the magnitude of the two vectors and the cosine of the angle between them. Similarly the cross product of the same two vectors is .
