Some influential designs include Piaggio's three wheeled vehicles, the Morgan three wheeler, and the Harley-Davidson Servicar. In the far future, Earth is about to be swallowed by a black hole in this sweeping SF epic from one of the masters of the genre. In a time so far from our own that we cannot comprehend it, humanity has spread amongst the stars and changed in more ways than we can count. But they have never forgotten their birthplace - Earth. But now Earth stands on the brink of catastrophe, at risk of being swallowed by a black hole. One man, Hanosz Prime, ruler of his world, is determined to visit Earth before it is destroyed. His abdication from his throne and his wanderlust are to prove the beginning of a much longer journey - one that will see him fall in love, meet the Oracles of Earth and perhaps, if he is very lucky, provide a means to save the cradle of humanity. Originally started by Robert Silverberg more than 20 years ago but never completed, Hanosz's story is taken up by Alvaro Zinos-Amaro. Silverberg hand-picked Zinos-Amaro to complete the book, and provided notes and guidance. The result is a remarkable collaboration between one of the masters of SF and one of the most exciting new voices in the genre.

Wilderness mythology is one of the most abiding creations in the history of religions, and yet it has not previously been subject to scrutiny or theorizing from a cross-cultural, "study-of-religions perspective". This book addresses the need for cross-cultural anthropological and history of religions analyses by offering in-depth case studies of the use and functions of wilderness spaces in diverse religions. It offers new theoretical perspectives on the study of religious spatialities, cosmologies, and ideas of wild nature that challenge previous dichotomizing approaches.

Writers who want the marketing savvy and career counseling an agent can provide can truly benefit from this listing of more than 500 literary and script agents in the United States and Canada.
