History - Introduction.

Page 42/134

The Honda Civic first entered the US car market in 1972 as a 1973 model year. Since then, the Civic has built a name for itself for being reliable,

Page 43/134

affordable, and fuel-efficient. While it started as a subcompact, it has since grown to become a well-respected member of the compact segment.

The Honda Civic is built
to be driven, but it can
be much more than that.

Page 45/134

It can be flexible and easily adapt to be what you want it to be.

Expanding the Civic line up is the new EX-Sport Line. With a 1.0L VTEC Turbo engine, sporty 17"

Page 46/134

alloys and a racy-
looking rear tailgate -
the look will be as
exciting as the drive.

The Honda Civic is an excellent car. No problems apart from right rear brakes had premature wearing, the inside pad had worn to

Page 48/134

the backing plate while
the outside pad had 3+mm
left.
