The remarkable autobiography of Paul Rusesabagina, the globally-recognized human rights champion whose heroism inspired the film Hotel Rwanda “Fascinating...your book is called An Ordinary Man, yet you took on an extraordinary feat with courage, determination, and diplomacy.” – Oprah, O, The Oprah Magazine As Rwanda was thrown into chaos during the 1994 genocide, Rusesabagina, a hotel manager, turned the luxurious Hotel Milles Collines into a refuge for more than 1,200 Tutsi and moderate Hutu refugees, while fending off their would-be killers with a combination of diplomacy and deception. In An Ordinary Man, he tells the story of his childhood, retraces his accidental path to heroism, revisits the 100 days in which he was the only thing standing between his “guests” and a hideous death, and recounts his subsequent life as a refugee and activist.

Already a classic of war reporting and now reissued as a Grove Press paperback, Black Hawk Down is Mark Bowden ' s brilliant account of the longest sustained firefight involving American troops since the Vietnam War. On October 3, 1993, about a hundred elite U.S. soldiers were dropped by helicopter into the teeming market in the heart of Mogadishu, Somalia. Their mission was to abduct two top lieutenants of a Somali warlord and return to base. It was supposed to take an hour. Instead, they found themselves pinned down through a long and terrible night fighting against thousands of heavily armed Somalis. The following morning, eighteen Americans were dead and more than seventy had been badly wounded. Drawing on interviews from both sides, army records, audiotapes, and videos (some of the material is still classified), Bowden ' s minute-by-minute narrative is one of the most exciting accounts of modern combat ever written—a riveting story that captures the heroism, courage, and brutality of battle.

What can we do to prevent more atrocities from happening in the future, and to stop the ones that are happening right now? That the World May Know tells the powerful and moving story of the successes and failures of the modern human rights movement. Drawing on firsthand accounts from fieldworkers around the world, the book gives a painfully clear picture of the human cost of confronting inhumanity in our day.

From the author of Guns, Germs and Steel, Jared Diamond's Collapse: How Societies Choose to Fail or Survive is a visionary study of the mysterious downfall of past civilizations. Now in a revised edition with a new afterword, Jared Diamond's Collapse uncovers the secret behind why some societies flourish, while others founder - and what this means for our future. What happened to the people who made the forlorn long-abandoned statues of Easter Island? What happened to the architects of the crumbling Maya pyramids? Will we go the same way, our skyscrapers one day standing derelict and overgrown like the temples at Angkor Wat? Bringing together new evidence from a startling range of sources and piecing together the myriad influences, from climate to culture, that make societies self-destruct, Jared Diamond's Collapse also shows how - unlike our ancestors - we can benefit from our knowledge of the past and learn to be survivors. 'A grand sweep from a master storyteller of the human race' - Daily Mail 'Riveting, superb, terrifying' - Observer 'Gripping ... the book fulfils its huge ambition, and Diamond is the only man who could have written it' - Economist 'This book shines like all Diamond's work' - Sunday Times

Film is made of moments. In its earliest form, the cinema was a moment: mere seconds recorded and projected into the darkness. Even as film has developed into today's complex and intricate medium, it is the brief, temporary and transitory that combines to create the whole. Our memories of films are composed of the moments we deem to be crucial: touchstones for our understanding and appreciation. Moments matter. The 38 specially commissioned essays in Film Moments examine a wide selection of key scenes across a broad spectrum of national cinemas, historical periods and genres, featuring films by renowned auteurs including Alfred Hitchcock, Jean Renoir and Vincente Minnelli and important contemporary directors such as Pedro Costa, Zhang Ke Jia and Quentin Tarantino, addressing films including City Lights, Gone with the Wind, The Wizard of Oz, The Night of the Hunter, Wild Strawberries, 8 1/2, Bonnie and Clyde, Star Wars, Conte d' é t é , United 93 and Lord of the Rings: Return of the King. Film Moments provides both an enlightening introduction for students to the diversity of approaches and concerns in the study of film, and a dynamic and vibrant account of key film sequences for anyone interested in enhancing their understanding of cinema.

Why was the UN a bystander during the Rwandan genocide? Do its sins of omission leave it morally responsible for the hundreds of thousands of dead? Michael Barnett, who worked at the U.S. Mission to the United Nations from 1993 to 1994, covered Rwanda for much of the genocide. Based on his first-hand experiences, archival work, and interviews with many key participants, he reconstructs the history of the UN's involvement in Rwanda. In the weeks leading up to the genocide, the author documents, the UN was increasingly aware or had good reason to suspect that Rwanda was a site of crimes against humanity. Yet it failed to act. Barnett argues that its indifference was driven not by incompetence or cynicism but rather by reasoned choices cradled by moral considerations. Employing a novel approach to ethics in practice and in relationship to international organizations, Barnett offers an unsettling possibility: the UN culture recast the ethical commitments of well-intentioned individuals, arresting any duty to aid at the outset of the genocide. Barnett argues that the UN bears some moral responsibility for the genocide. Particularly disturbing is his observation that not only did the UN violate its moral responsibilities, but also that many in New York believed that they were "doing the right thing" as they did so. Barnett addresses the ways in which the Rwandan genocide raises a warning about this age of humanitarianism and concludes by asking whether it is possible to build moral institutions.

Imagine being born into a world where everything about you—the shape of your nose, the look of your hair, the place of your birth—designates you as an undesirable, an inferior, a menace, no better than a cockroach, something to be driven away and ultimately exterminated. Imagine being thousands of miles away while your family and friends are brutally and methodically slaughtered. Imagine being entrusted by your parents with the mission of leaving everything you know and finding some way to survive, in the name of your family and your people. Scholastique Mukasonga's Cockroaches is the story of growing up a Tutsi in Hutu-dominated Rwanda—the story of a happy child, a loving family, all wiped out in the genocide of 1994. A vivid, bittersweet depiction of family life and bond in a time of immense hardship, it is also a story of incredible endurance, and the duty to remember that loss and those lost while somehow carrying on. Sweet, funny, wrenching, and deeply moving, Cockroaches is a window onto an unforgettable world of love, grief, and horror.

The Power of Empowering Others Leadership isn't easy. It takes grit, courage, and vision, among other things, that can be hard to come by on your toughest days. When leaders and aspiring leaders seek out advice, they're often told to try harder. Dig deeper. Look in the mirror and own your natural-born strengths and fix any real or perceived career-limiting deficiencies. Frances Frei and Anne Morriss offer a different worldview. They argue that this popular leadership advice glosses over the most important thing you do as a leader: build others up. Leadership isn't about you. It's about how effective you are at empowering other people—and making sure this impact endures even in your absence. As Frei and Morriss show through inspiring stories from ancient Rome to present-day Silicon Valley, the origins of great leadership are found, paradoxically, not in worrying about your own status and advancement, but in the unrelenting focus on other people's potential. Unleashed provides radical advice for the practice of leadership today. Showing how the boldest, most effective leaders use a special combination of trust, love, and belonging to create an environment in which other people can excel, Frei and Morriss offer practical, battle-tested tools—based on their work with companies such as Uber, Riot Games, WeWork, and others—along with interviews and stories from their own personal experience, to make these ideas come alive. This book is your indispensable guide for unleashing greatness in other people . . . and, ultimately, in yourself. To learn more, please visit theleadersguide.com.

How Men Can Be Better Allies for Women in the Workplace

A rare and brilliant story from Zadie Smith, taking us deep into the life of a young woman, Fatou, domestic servant to the Derawals and escapee from one set of hardships to another. Beginning and ending outside the Embassy of Cambodia, which happens to be located in Willesden, NW London, Zadie Smith's absorbing, moving and wryly observed story suggests how the apparently small things in an ordinary life always raise larger, more extraordinary questions. 'It's scale is superficially small, but its range is lightly immense; in the first couple of pages, the world from Ghana to London to Cambodia enters. It is a fiction of consequences both global and heartrenchingly intimate. This voice is global, plural and local, with a delicate grip on historic consequences..... Works on an awesomely global scale, and the relations of slavery and mastership are traced in both personal and international scale.' Philip Hensher, The Guardian 'Reading it is a bit like having a starter in a restaurant that is so good you wish you had ordered a big portion as a main course, only to realise, as you finish it, that it was exactly the right amount.' 'A perfect stocking-filler of a book that shows that short-form fiction can be as vibrant and as healthy as any densely realised full-length novel.' Louise Doughty, The Observer 'Smith serves up a smasher.' Leyla Sanai, The Independent On Sunday

Explores the role of the media in the Rwandan genocide -- within the country and beyond.

In 2004, the Academy Award-nominated movie Hotel Rwanda lionized hotel manager Paul Rusesabagina for single-handedly saving the lives of all who sought refuge in the Hotel des Milles Collines during Rwanda's genocide against the Tutsi in 1994. Because of the film, the real-life Rusesabagina has been compared to Oskar Schindler, but unbeknownst to the public, the hotel's refugees don't endorse Rusesabagina's version of the events. In the wake of Hotel Rwanda's international success, Rusesabagina is one of the most well-known Rwandans and now the smiling face of the very Hutu Power groups who drove the genocide. He is accused by the Rwandan prosecutor general of being a genocide negationist and funding the terrorist group Democratic Forces for the Liberation of Rwanda (FDLR). In Inside the Hotel Rwanda, survivor Edouard Kayihura tells his own personal story of what life was really like during those harrowing 100 days within the walls of that infamous hotel and offers the testimonies of others who survived there, from Hutu and Tutsi to UN peacekeepers. Kayihura tells of his life in a divided society and his journey to the place he believed would be safe from slaughter. Inside the Hotel Rwanda exposes Paul Rusesabagina as a profiteering, politically ambitious Hutu Power sympathizer who extorted money from those who sought refuge, threatening to send those who did not pay to the genocidaires, despite pleas from the hotel's corporate ownership to stop. Inside the Hotel Rwanda is at once a memoir, a critical deconstruction of a heralded Hollywood movie alleged to be factual, and a political analysis aimed at exposing a falsely created hero using his fame to be a political force, spouting the same ethnic apartheid that caused the genocide two decades ago.

The 7th edition of this best-selling social psychology text by Graham Vaughan and Michael Hogg, Social Psychology, retains the structure and approach of the previous edition but has been revised to reflect the changes in the field, with the material thoroughly updated throughout. Social Psychology 7e continues to capture the scope and detail of contemporary social psychology as an international scientific enterprise and at the same time deals with the subject in a way that is relevant to university teaching and social psychology research in Australia and New Zealand.

An incisive look at the causes and consequences of the Rwandan genocide "When we captured Kigali, we thought we would face criminals in the state; instead, we faced a criminal population."

So a political commissar in the Rwanda Patriotic Front reflected after the 1994 massacre of as many as one million Tutsis in Rwanda. Underlying his statement was the realization that, though ordered by a minority of state functionaries, the slaughter was performed by hundreds of thousands of ordinary citizens, including judges, doctors, priests, and friends. Rejecting easy explanations of the Rwandan genocide as a mysterious evil force that was bizarrely unleashed, When Victims Become Killers situates the tragedy in its proper context. Mahmood Mamdani coaxes to the surface the historical, geographical, and political forces that made it possible for so many Hutus to turn so brutally on their neighbors. In so doing, Mamdani usefully broadens understandings of citizenship and political identity in postcolonial Africa and provides a direction for preventing similar future tragedies.

What's missing from gender equality efforts? Men. Women are at a disadvantage in the workplace, where they deal with unequal pay, sexual harassment, lack of credit for their contributions, and more. And while organizations are looking to address these issues, too many gender-inclusion initiatives focus exclusively on how women should respond, leaving men out of the equation. Such efforts reinforce the perception that these are "women's issues" and that men--often the most powerful stakeholders in an organization--don't need to be involved. As gender-in-the-workplace experts David G. Smith and W. Brad Johnson show in this important book, men have a crucial opportunity to promote gender equality at work. Research shows that when men are deliberately engaged in gender-inclusion programs, 96 percent of women in those organizations perceive real progress in gender equality, compared with only 30 percent of women in organizations without strong male engagement. Good Guys is the first book to provide a practical, research-based guide for how to be a male ally to women in the workplace. Filled with firsthand accounts from both men and women, as well as tips for getting started, the book shows how men can partner with their female colleagues to advance women's leadership and equality by breaking ingrained gender stereotypes, overcoming unconscious biases, developing and supporting the talented women around them, and creating productive and respectful working relationships with women--especially in a post-#MeToo world.

Events in Rwanda in 1994 mark a landmark in the history of modern genocide. Up to one million people were killed in a planned public and political campaign. In the face of indisputable evidence, the Security Council of the United Nations failed to respond. In this classic of investigative journalism, Linda Melvern tells the compelling story of what happened. She holds governments to account, showing how individuals could have prevented what was happening and didn't do so. The book also reveals the unrecognized heroism of those who stayed on during the genocide, volunteer peacekeepers and those who ran emergency medical care. Fifteen years on, this new edition examines the ongoing impact of the 1948 Genocide Convention and the shock waves Rwanda caused around the world. Based on fresh interviews with key players and newly-released documents, *A People Betrayed* is a shocking indictment of the way Rwanda is and was forgotten and how today it is remembered in the West.

Can you have a meaningful, well-paid career without a daily commute to a physical office, and without burning out? Can your team or organization work well together and maintain team culture, even when physically apart? Can your organization's "work from home" policy be a competitive advantage--improving organizational resilience while also addressing important social, diversity, urban planning and environmental issues? If you find yourself asking questions like these, this book is for you. This updated second edition features best practices from over 28 years working in, leading, and coaching globally distributed organizations--as well as lessons learned helping organizations quickly shift to fully distributed during COVID-19 office closures. Each short easy-to-read chapter has practical takeaways on what did--and did not--work from my own hard-learned lessons, along with a wide range of interviews with company founders, hedge fund managers, government agency leaders, software developers, accountants, political organizers, recruiters, military personnel, executive assistants and medical technicians.

The more traditional forms of leadership that are based on static hierarchies and professional distance between leaders and followers are growing increasingly outdated and ineffective. As organizations face more complex interdependent tasks, leadership must become more personal in order to insure open trusting communication that will make more collaborative problem solving and innovation possible. Without open and trusting communications throughout organizations, they will continue to face the productivity and quality problems that result from reward systems that emphasize individual competition and "climbing the corporate ladder". Authors Edgar Schein and Peter Schein recognize this reality and call for a reimagined form of leadership that coincides with emerging trends of relationship building, complex group work, diverse workforces, and cultures in which everyone feels psychologically safe. *Humble Leadership* calls for "here and now" humility based on a deeper understanding of the constantly evolving complexities of interpersonal, group and intergroup relationships that require shifting our focus towards the process of group dynamics and collaboration. *Humble Leadership* at all levels and in all working groups will be the key to achieving the creativity, adaptiveness, and agility that organizations will need to survive and grow.

A Holocaust survivor's surprising and thought-provoking study of forgiveness, justice, compassion, and human responsibility, featuring contributions from the Dalai Lama, Harry Wu, Cynthia Ozick, Primo Levi, and more. While imprisoned in a Nazi concentration camp, Simon Wiesenthal was taken one day from his work detail to the bedside of a dying member of the SS. Haunted by the crimes in which he had participated, the soldier wanted to confess to--and obtain absolution from--a Jew. Faced with the choice between compassion and justice, silence and truth, Wiesenthal said nothing. But even years after the way had ended, he wondered: Had he done the right thing? What would you have done in his place? In this important book, fifty-three distinguished men and women respond to Wiesenthal's questions. They are theologians, political leaders, writers, jurists, psychiatrists, human rights activists, Holocaust survivors, and victims of attempted genocides in Bosnia, Cambodia, China and Tibet. Their responses, as varied as their experiences of the world, remind us that Wiesenthal's questions are not limited to events of the past.

A trailblazing collection of writing from Binyavanga Wainaina's extraordinary life 'In your text, treat Africa as if it were one country. It is hot and dusty with rolling grasslands and huge herds of animals and tall, thin people who are starving. Or it is hot and steamy with very short people who eat primates. Don't get bogged down with precise descriptions.' Binyavanga Wainaina was a seminal author and activist, remembered as one of the greatest chroniclers of contemporary African life. After his death in 2019, this ground-breaking collection brings together his pioneering writing on the African continent for the first time. A rule-breaker full of wry satire and piercing wisdom, this collection includes many of Binyavanga's most critically acclaimed pieces, including the viral satirical sensation *How to Write About Africa*. On the tenth anniversary of the date that UN peacekeepers landed in Rwanda, Random House Canada is proud to publish the unforgettable first-hand account of the genocide by the man who led the UN mission. Digging deep into shattering memories, General Dallaire has written a powerful story of betrayal, naïveté, racism and international politics. His message is simple and undeniable: "Never again." When Lt-Gen. Roméo Dallaire received the call to serve as force commander of the UN intervention in Rwanda in 1993, he thought he was heading off on a modest and straightforward peacekeeping mission. Thirteen months later he flew home from Africa, broken, disillusioned and suicidal, having witnessed the slaughter of 800,000 Rwandans in only a hundred days. In *Shake Hands with the Devil*, he takes the reader with him on a return voyage into the hell of Rwanda, vividly recreating the events the international community turned its back on. This book is an unsparing eyewitness account of the failure by humanity to stop the genocide, despite timely warnings. Woven through the story of this disastrous mission is Dallaire's own journey from confident Cold Warrior, to devastated UN commander, to retired general engaged in a painful struggle to find a measure of peace, reconciliation and hope. This book is General Dallaire's personal account of his conversion from a man certain of his worth and secure in his assumptions to a man conscious of his own weaknesses and failures and critical of the institutions he'd relied on. It might not sit easily with standard ideas of military leadership, but understanding what happened to General Dallaire and his mission to Rwanda is crucial to understanding the moral minefields our peacekeepers are forced to negotiate when we ask them to step into the world's dirty wars. Excerpt from *Shake Hands with the Devil* My story is not a strictly military account nor a clinical, academic study of the breakdown of Rwanda. It is not a simplistic indictment of the many failures of the UN as a force for peace in the world. It is not a story of heroes and villains, although such a work could easily be written. This book is a cri de coeur for the slaughtered thousands, a tribute to the souls hacked apart by machetes because of their supposed difference from those who sought to hang on to power. . . . This book is the account of a few humans who were entrusted with the role of helping others taste the fruits of peace. Instead, we watched as the devil took control of paradise on earth and fed on the blood of the people we were supposed to protect. A character-driven study of some of the darkest moments in our national history, when America failed to prevent or stop 20th-century campaigns to exterminate Armenians, Jews, Cambodians, Iraqi Kurds, Bosnians, and Rwandans.

In the spring of 1994, the tiny African nation of Rwanda was ripped apart by a genocide that left nearly a million dead. Neighbors attacked neighbors. Family members turned against their own. After the violence subsided, Rwanda's women--drawn by the necessity of protecting their families--carved out unlikely new roles for themselves as visionary pioneers creating stability and reconciliation in genocide's wake. Today, 64 percent of the seats in Rwanda's elected house of Parliament are held by women, a number unrivaled by any other nation. While news of the Rwandan genocide reached all corners of the globe, the nation's recovery and the key role of women are less well known. In *Rwandan Women Rising*, Swanee Hunt shares the stories of some seventy women--heralded activists and unsung heroes alike--who overcame unfathomable brutality, unrecoverable loss, and unending challenges to rebuild Rwandan society. Hunt, who has worked with women leaders in sixty countries for over two decades, points out that Rwandan women did not seek the limelight or set out to build a movement; rather, they organized around common problems such as health care, housing, and poverty to serve the greater good. Their victories were usually in groups and wide ranging, addressing issues such as rape, equality in marriage, female entrepreneurship, reproductive rights, education for girls, and mental health. These women's accomplishments provide important lessons for policy makers and activists who are working toward equality elsewhere in Africa and other postconflict societies. Their stories, told in their own words via interviews woven throughout the book, demonstrate that the best way to reduce suffering and to prevent and end conflicts is to elevate the status of women throughout the world.

The Great Lakes region of Africa has seen dramatic changes. After a decade of war, repression, and genocide, loosely allied regimes have replaced old-style dictatorships. The Path of a Genocide examines the decade (1986-97) that brackets the 1994 genocide in Rwanda. This collection of essays is both a narrative of that event and a deep reexamination of the international role in addressing humanitarian issues and complex emergencies. Nineteen donor countries and seventeen multilateral organizations, international agencies, and international nongovernmental organizations pooled their efforts for an in-depth evaluation of the international response to the conflict in Rwanda. Original studies were commissioned from scholars from Uganda, Rwanda, Zaire, Ethiopia, Norway, Great Britain, France, Canada, and the United States. While each chapter in this volume focuses on one dimension of the Rwanda conflict, together they tell the story of this unfolding genocide and the world's response. The Path of a Genocide offers readers a perspective in sharp contrast to the tendency to treat a peace agreement as the end to conflict. This is a detailed effort to make sense of the political crisis and genocide in Rwanda and the effects it had on its neighbors.

The State of the World's Land and Water Resources for Food and Agriculture is FAO's first flagship publication on the global status of land and water resources. It is an 'advocacy' report, to be published every three to five years, and targeted at senior level decision makers in agriculture as well as in other sectors. SOLAW is aimed at sensitizing its target audience on the status of land resources at global and regional levels and FAO's viewpoint on appropriate recommendations for policy formulation. SOLAW focuses on these key dimensions of analysis: (i) quantity, quality of land and water resources, (ii) the rate of use and sustainable management of these resources in the context of relevant socio-economic driving factors and concerns, including food security and poverty, and climate change. This is the first time that a global, baseline status report on land and water resources has been made. It is based on several global spatial databases (e.g. land suitability for agriculture, land use and management, land and water degradation and depletion) for which FAO is the world-recognized data source. Topical and emerging issues on land and water are dealt with in an integrated rather than sectoral manner. The implications of the status and trends are used to advocate remedial interventions which are tailored to major farming systems within different geographic regions.

Sandra was just ten years old when she found herself with a gun pointed at her head. She had watched as rebels gunned down her mother and six-year-old sister in a refugee camp. Eventually, through a United Nations refugee program, they moved to America, only to face yet another ethnic disconnect. Sandra may have crossed an ocean, but there was now a much wider divide she had to overcome. And it started with middle school in New York. In this memoir, Sandra tells the story of her survival, of finding her place in a new country, of her hope for the future, and how she found a way to give voice to her people.

"Leave None to Tell the Story"

In April-May 1994, 800,000 Rwandan Tutsis were massacred by their Hutu fellow citizens--about 10,000 a day, mostly being hacked to death by machete. In *Machete Season*, the veteran foreign correspondent Jean Hatzfeld reports on the results of his interviews with nine of the Hutu killers. They were all friends who came from a single region where they helped to kill 50,000 out of their 59,000 Tutsi neighbors, and all of them are now in prison, some awaiting execution. It is usually presumed that killers will not tell the truth about their brutal actions, but Hatzfeld elicited extraordinary testimony from these men about the genocide they had perpetrated. He rightly sees that their account raises as many questions as it answers. Adabert, Alphonse, Ignace, and the others (most of them farmers) told Hatzfeld how the work was given to them, what they thought about it, how they did it, and what their responses were to the bloodbath. "Killing is easier than farming," one says. "I got into it, no problem," says another. Each describes what it was like the first time he killed someone, what he felt like when he killed a mother and child, how he reacted when he killed a cordial acquaintance, how 'cutting' a person with a machete differed from 'cutting' a calf or a sugarcane. And they had plenty of time to tell Hatzfeld, too, about whether and why they had reconsidered their motives, their moral responsibility, their guilt, remorse, or indifference to the crimes. Hatzfeld's meditation on the banal, horrific testimony of the genocidaires and what it means is lucid, humane, and wise: he relates the Rwanda horror to war crimes and to other genocidal episodes in human history. Especially since the Holocaust, it has been conventional to presume that only depraved and monstrous evil incarnate could perpetrate such crimes, but it may be, he suggests, that such actions are within the realm of ordinary human conduct. To read this disturbing, enlightening and very brave book is to consider in a new light the foundation of human morality and ethics.
