

## How Asia Works

The first book to offer an Asia-wide deconstruction of success and failure in economic development, Studwell's latest work is provocative and iconoclastic - and sobering reading for most of the world's developing countries. How Asia Works is a must-read book that packs powerful insights about the world's most misunderstood continent.

In 2014, Bill Gates wrote a blog post talking about a compelling book he read called, How Asia Works, by Joe Studwell. In Gates ' s post, he stated that he made the book a mandatory read for all the members of his agricultural team at the Gates Foundation. In Studwell ' ' s book, he starts off by describing Joe Studwell ' ' s How Asia Works is fascinating reading. It talks about how Korea, Japan and China have grown while their counterparts haven ' ' t. Studwell highlights a number of factors that contribute to economic growth: With an agrian economy, a market garden approach to agriculture rather than farming at scale delivers the best results.

'How Asia Works' passes the sniff test in that it actually helps to explain current events in Asia - for example the current fun and games with the Thai government's guaranteed rice purchases, which post-date the publication of the book. The most important premise in the book is the need for land reform to fund industrialisation.

How Asia Works: Success and Failure in the World's Most ...

In " How Asia Works ", Joe Studwell tells us how this seeming miracle was made possible: a three-step prescription of land reform, export-focused industrial policy, and financial repression. Japan, South Korea, Taiwan, and (most recently) mainland China have grown rich by following this formula; by ignoring it,

How Asia Works: Success and Failure in the World's Most ...

In How Asia Works, Joe Studwell distills extensive research into the economics of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished.

How Asia Works | Grove Atlantic

How Asia Works is not a gripping page-turner aimed at general audiences, but it ' s a good read for anyone who wants to understand what actually determines whether a developing economy will succeed. Studwell ' ' s formula is refreshingly clear—even if it ' s very difficult to execute.

Can the Asian miracle happen in Africa? | Bill Gates

The first book to offer an Asia-wide deconstruction of success and failure in economic development, Studwell's latest work is provocative and iconoclastic - and sobering reading for most of the world's developing countries. How Asia Works is a must-read book that packs powerful insights about the world's most misunderstood continent.

How Asia Works - Profile Books

Joe Studwell, in his book How Asia Works: Success and Failure in the World ' s Most Dynamic Region?, attempts to provide a nuanced answer. The author articulates why some countries in the region boom while others stagnate.
