### **Electric Shock First Aid Poster - HSE Books**

NEVER touch the person receiving the electric shock, or you could suffer one too. After removing the person from the source of electricity, if the person is unconscious call for an ambulance immediately. Only those with the necessary knowledge and skill should carry out first aid. Where the person is conscious and seems well, it is still advisable to monitor their condition, as the effects of an electric shock may not be immediately obvious.

## **Electric Shocks: First Aid Advice | Electrical Safety First**
