

I Spy Numbers

There are a number of ways to make these pages reusable. You could slip an I Spy game into a dry erase pocket and have kids color the letters with a dry erase marker. For kids who don't want to color, they can put a colored gem or counter on each letter. This encourages fine motor skill building in a whole different way.

I Spy Number is an elementary, yet exciting platform for young kids to test their number recognition skills. In this, you see a number in the center of the screen. Below it, four pictures are given. One of these has the number you see at the center, and that number of stars. You have to identify this picture and click on it.

Teach and assess early childhood students' understanding of the numbers one to ten in different forms using our Number Sense I Spy Numbers 1-10 Pack. Students will use number recognition and number skills to find the numbers one to ten in forms of the number word, ten frame, tally marks, dice, blocks, numerals, and counting fingers and then color the correct answers. Use these activity sheets as individual practice, small group activity, an assessment tool, or homework practice.

~~Number Sense I Spy Numbers 1-10 Activity Pack (teacher made)~~

Have your child look at the pictures and make up an "I Spy" type riddle for you to solve using the pictures. For example "I Spy with my little eye, a number that is greater than 25 but less than 76" or "I Spy a number with a 7 in the tens place." After you have solved the riddle, make a riddle for your child to solve.
