

# Ibm Switch Configuration Guide

Create the interfaces to be bonded as per Example 11.2, “Example ifcfg-ethX bonded interface configuration file” and assign them to the bond interfaces as required using the MASTER=bondN directive. For example, continuing on from the example above, if two interfaces per bond are required, then for two bonds create four interface configuration files and assign the first two using MASTER ...

Why become an IBM Coder? The IBM Coder Program is an inclusive program for developers building with IBM Developer within the community. It is open to all developers of all levels, around the world.

From servers and mainframes to storage systems and software, IBM IT infrastructure provides the building blocks of a next-generation IT architecture to power your enterprise.

## **Ibm Switch Configuration Guide**

Meet your next enterprise server To get the best in performance and stability, you need a business server that meets your workload demands. That's why IBM enterprise servers give you the tools you need to innovate and accelerate.
