Conference on Innovation Systems and Innovative Clusters in Africa held at Bagamoyo, Tanzania, in February 2004. The three were resource persons at the conference, which was organized to generate greater awareness of the role of clusters and innovation-systems concepts in Africa. It was a follow-up to the September 2003 Competitiveness Institute

### **Industrial clusters and innovation systems in Africa**

Vibrant clusters are home of innovation oriented firms that reap the benefits of an integrated support system and dynamic business networks. Networks are alliances of firms that work together towards an economic goal. They can be established between firms within clusters but also exist outside clusters. Networks can be horizontal and vertical.
