A #1 NEW YORK TIMES BESTSELLER One of the most salient features of our culture is that there is so much bullshit. Everyone knows this. Each of us contributes his share. But we tend to take the situation for granted. Most people are rather confident of their ability to recognize bullshit and to avoid being taken in by it. So the phenomenon has not aroused much deliberate concern. We have no clear understanding of what bullshit is, why there is so much of it, or what functions it serves. And we lack a conscientiously developed appreciation of what it means to us. In other words, as Harry Frankfurt writes, "we have no theory." Frankfurt, one of the world's most influential moral philosophers, attempts to build such a theory here. With his characteristic combination of philosophical acuity, psychological insight, and wry humor, Frankfurt proceeds by exploring how bullshit and the related concept of humbug are distinct from lying. He argues that bullshitters misrepresent themselves to their audience not as liars do, that is, by deliberately making false claims about what is true. In fact, bullshit need not be untrue at all. Rather, bullshitters seek to convey a certain impression of themselves without being

concerned about whether anything at all is true. They quietly change the rules governing their end of the conversation so that claims about truth and falsity are irrelevant.

Frankfurt concludes that although bullshit can take many innocent forms, excessive indulgence in it can eventually undermine the practitioner's capacity to tell the truth in a way that lying does not. Liars at least acknowledge that it matters what is true. By virtue of this, Frankfurt writes, bullshit is a greater enemy of the truth than lies are.

Research Paper from the year 2016 in the subject English - Pedagogy, Didactics, Literature Studies, , language: English, abstract: The 3rd edition of “The Interchange” has been chosen in this study because it’s a fully revised edition of the world’s most successful English learning series for adult and young adult learners. As per my long experience in teaching this book in the Middle East, I am one of the admirers of this book because it is simple, modernized and it also has valuable information for the learners. It is mentioned in the book that English is not limited to a culture, religion or nationality and

it's a global or international language. Consequently, it's very important to know whether the aims of the book have been achieved or not. And because the textbook has a strong effect on the learners' behaviors, it is crucial to be evaluated culturally in order to know whether it is really suitable for our learners or not.
