Introduction to this

the course notes for  
MMAE 410 Aircraft  
Flight Mechanics at  
the Illinois Institute  
of Technology - this  
text originally

started as a PDF file written using LaTeX, with links to code and other tidbits. These notes started as my means of ensuring my own competence with the material and, accordingly, they get updated regularly and requiring students to

download an  
updated PDF file  
every few weeks  
proved to not be the  
ideal solution.
