Japanese Visual Culture

Just in terms of the expansive area with which MacWilliams
covers the topic of Japanese Visual Culture is enough to
warrant kudos. This book collects writers from across the

globe to comment on Japanese visuals, aesthetics, and media from before the world knew of Hokusai's views of Mount Fuji all the way up to computer-generated animation in films like *Ghost in the Shell 2*.

Japanese Visual Culture is an academic series devoted to the visual culture of the Japanese archipelago of every era. It includes studies on the history of painting, prints, calligraphy, sculpture, architecture and applied arts, but also extends to the performing arts, cinema, manga and anime. Despite the recent trend away from monographs on individual artists or object-based studies, the Japanese Visual Culture series recognizes the still-crucial need for research on Japanese artists or ...

Japanese art is the painting, calligraphy, architecture, pottery, sculpture, and other visual arts produced in Japan from about 10,000 BCE to the present. Within its diverse body of expression, certain characteristic elements seem to be recurrent: adaptation of other cultures, respect for nature as a model, humanization of religious iconography, and appreciation for material as a vehicle of meaning.
