KEY BENEFIT: With its real-life examples and cases, and its lively, conversational writing style, Bovee/Thill/Mescon brings concepts to life and prepares students for obtaining and pursuing satisfying business careers. KEY TOPICS: Bovee/Thill/Mescon weaves a four-part pedagogical tool through out each chapter. It starts with Orient, which outlines what is going to be covered in the chapter and then connects these topics with a "role-model" business professional. Next is Explore, which looks at the skills that their "role-model" used in order to be successful. Third is Confirm, which revisits what they have learned in the chapter. And, finally, Apply allows students to use the skills they have learned in the chapter. MARKET: For introductory level business students.

"The first encyclopedia to cover inclusively both quantitative and qualitative research approaches, this set provides clear explanations of 1,000 methodologies, avoiding mathematical equations when possible with liberal cross-referencing and bibliographies. Each volume includes a list of works cited, and the third contains a comprehensive index and lists of person names, organizations, books, tests, software, major concepts, surveys, and methodologies."—"Reference that rocks," American Libraries, May 2005.

COVID-19 is the most significant global crisis of any of our lifetimes. The numbers have been stupefying, whether of infection and mortality, the scale of public health measures, or the economic consequences of shutdown. Coronavirus Politics identifies key threads in the global comparative discussion that continue to shed light on COVID-19 and shape debates about what it means for scholarship in health and comparative politics. Editors Scott L. Greer, Elizabeth J. King, Elize Massard da Fonseca, and André Peralta-Santos bring together over 30 authors versed in politics and the health issues in order to understand the health policy decisions, the public health interventions, the social policy decisions, their interactions, and the reasons. The book's coverage is global, with a wide range of key and exemplary countries, and contains a mixture of comparative, thematic, and templated country studies. All go beyond reporting and monitoring to develop explanations that draw on the authors' expertise while engaging in structured conversations across the book.

Financial Accounting for BBA has been written to meet the requirements of undergraduate students, particularly at the BBA level. This book covers the syllabi of major universities across the country, providing basic knowledge of accounting principles and practices in a systematic manner. The topics have been dealt with in a lucid manner to enable better understanding, especially for those students who do not have an accounting background. The text is examination-oriented and is supplemented with relevant solved illustrations for all the topics.

The market-leading European text on management accounting and comprehensive authority on all aspects of the subject has been streamlined and substantially redesigned in its 6th edition to make it even more suitable for the needs of today's student. The aim of the new edition is to explain the principles involved in the design and evaluation of management and cost accounting information systems. The emphasis in the book is on management accounting systems that will be used for internal decision-making purposes within an organisation, however, cost accounting systems for external reporting are also comprehensively covered. It has been brought up to date with the latest developments in the subject. Having been made stronger pedagogically with the addition of the answers to the questions and more real-world mini cases, the text brings home the relevance of the subject matter to the real world of business.

Islamic economics is one of the most significant aspects of the Islamic resurgence in the Muslim world. Its development during the last twenty-five years has been so impressive that it has become difficult to keep pace with the growing literature emanating from every part of the world. It has attracted world-wide attention and scholars and researchers are endeavouring to explore all aspects of Islamic economics. Islamic economics is now taught as an academic discipline in the universities of Islamic countries. This bibliography consists of some 1600 entries in the English language, covering the last twenty years. Entries are drawn from published and unpublished sources, including books, articles, dissertations, theses and conference papers. It includes author and subject indexes, and an appendix listing the most important journals devoted exclusively to the theory and practice of Islamic economics.

This authoritative directory has been expanded to cover 13,000 major companies and includes the contact names of more than 81,000 senior executives, major companies and includes the contact names of more than 81,000 senior executives. The Economic Survey is the budget document of the Government of India. It presents the state of affairs of the Indian economy. Economic Survey 2017-18 consists of two volumes. Volume I provides an analytical overview of the performance of the Indian economy during the financial year 2017-18. It highlights the long-term challenges facing the economy. Volume II is a descriptive review of the major sectors of the economy. It emphasizes economic reforms of contemporary relevance like GST, the investment-saving slowdown, fiscal federalism and accountability, gender inequality, climate change and agriculture, science and technology, among others.

This book entitled "Aligarh Muslim University: An Educational and Political History, 1920-47" is a complete history of Aligarh Muslim University right from its establishment to the Indian Independence of 1947. The content of this book throws light on educational development of AMU and political participation of its alumni into the ongoing national movement of that time. The chapters of this book also mentions that how the alumni was divided into loyalist and nationalist factions on the question of Pakistan Movement.

Large-scale, highly interconnected networks, which are often modeled as graphs, pervade both our society and the natural world around us. Uncertainty, on the other hand, is inherent in the underlying data due to a variety of reasons, such as noisy measurements, lack of precise information needs, inference and prediction models, or explicit manipulation, e.g., for privacy purposes. Therefore, uncertain, or probabilistic, graphs are increasingly used to represent noisy linked data in many emerging application scenarios, and they have recently become a hot topic in the database and data mining communities. Many classical algorithms such as reachability and shortest path queries become #P-complete and, thus, more expensive over uncertain graphs. Moreover, various complex queries and analytics are also emerging over uncertain networks, such as pattern matching, information diffusion, and influence maximization queries. In this book, we discuss the sources of uncertain graphs and their applications, uncertainty modeling, as well as the complexities and algorithmic advances on uncertain graphs processing in the context of both classical and emerging graph queries and analytics. We emphasize the current challenges and highlight some future research directions.

Financial soundness indicators (FSIs) are methodological tools that help quantify and qualify the soundness and vulnerabilities of financial systems according to five areas of interests: capital adequacy, asset quality, earnings, liquidity, and sensitivity to market risk. With support from the Investment Climate Facilitation Fund under the Regional Cooperation and Integration Financing Facility, this report describes the development of FSIs for Viet Nam and analyzes the stability and soundness of the Vietnamese banking system by using these indicators. The key challenges to comprehensively implementing reforms and convincingly addressing the root causes of the banking sector problems include (i) assessing banks' recapitalization needs, (ii) revising classification criteria to guide resolution options, (iii) recapitalization and restructuring that may include foreign partnerships, (iv) strengthening the Vietnam Asset Management Company, (v) developing additional options to deal with nonperforming loans, (vi) tightening supervision to ensure a sound lending practice, (vii) revamping the architecture and procedures for crisis management, and (viii) strengthening financial safety nets during the reform process.

"It's Business, It's Personal is an appropriate reminder that building a successful and sustainable business depends on many interdependent factors, not just one latest 'flavor of the month' practice. Saad also reminds us of the vital importance of foundational values and principles guiding an organization. The book goes beyond the theory of business success but also provides very practical 'how to' guidance."—Werner Geissler, Vice Chairman of Global Operations, Procter & Gamble "Mr. Saad brilliantly demonstrates the need for consumer-centric purpose as a basis for enduring business success. Equally important is his conviction that good organizational practice is rooted in a strong value system. Equipped with twenty-five years of hard-earned business experience at Procter & Gamble, the author goes beyond lofty principles and provides time-honored advice on how to turn a vision into a winning in-market execution."—Peter Corijn, Vice President for the Regional Business Unit of Gillette, Procter & Gamble "I was proud to have worked with Saad and found him an effective leader—a most honest and dependable associate. A person I would like to work with in any assignment."—Fouad Kraytem, President Middle East Africa and General Export (MEAGE), Procter & Gamble "Saad has captured a treasure trove of insights from his long career at P&G. Insights that contributed to the outstanding success of the subsidiaries he was an important part of. It is almost criminal that non-P&Gers are offered the opportunity to read and learn from this book!"—Philippe Bovay, Vice President/General Manager, Procter & Gamble Pakistan "Excellent synopsis of the entire business exercise of vision setting and its associated processes. Saad captures in tremendous detail the entire process and goes into great depth on how to drive organizational excellence without which the vision would be powerless. The key to executing this process with excellence is what I call BOF i.e. Brutal Obsession with Fundamentals."—Al Rajwani, Vice President Arabian Peninsula and Pakistan, Procter & Gamble
