This Standard specifies callipers equipped with analogue or digital indicating devices with either a vernier scale or a circular scale. NOTE: The International Standard corresponding to this Standard and the symbol of degree of correspondence are as follows.

JIS B 7507 : Vernier, Dial and Digital Callipers

The Japanese Industrial Standards organisation (JIS) has defined two paper size series the JIS A, that is the same as ISO 216 A size with minor differences in tolerances. JIS B series paper is not the same as ISO 216 B series paper, with the JIS B sizes having an area of 1.5 times the A paper size rather than the root 2 times the size in ISO 216.

## Japanese Paper Sizes - JIS A and JIS B Series

Japanese Industrial Standards (JIS) specifies the standards used for industrial activities in Japan. The standardization process is coordinated by the Japanese Industrial Standards Committee and published through the Japanese Standards Association.

## About JIS - EnglishJapan Standards Association

Japanese Industrial Standards (JIS) (日本産業規格, Nihon Sangyō Kikaku, formerly 日本工業規格 Nihon Kōgyō Kikaku until June 30, 2019) are the standards used for industrial activities in Japan, coordinated by the Japanese Industrial Standards Committee (JISC) and published by the Japanese Standards Association (JSA). The JISC is composed of many nationwide committees and plays a ...
