Kai Hwang, Naresh
Jotwani. The new
edition offers a
balanced treatment of
theory, technology

Page 110/126

architecture and software used by advanced computer systems. It presents state-of-the-art principles and techniques for designing and programming parallel, vector, and scalable computer systems. The

Page 111/126

emphasis on
parallelism, scalability
and programmability
lends an added flavor
to this text.
