the table or counter, right next to the dishwasher or in another place when space is at a premium.

KINETICO K5
REVERSE OSMOSIS
SYSTEM. The
Kinetic K5

Page 144/151

Drinking Water
Station
delivers twice
the flow rate
of any other
water system.
It produces
more RO water
(more than 40
gallons a day)
than any other
system. It
significantly

Page 145/151

reduces more
contaminants
than a standard
RO. And it does
so stylishly
with your
choice of
designer
faucets.

K5 Pure Water
Filter |
Kineticco UK

The Kineticco K5

Page 146/151

RO takes water with dissolved solids in it and filters out up to 98% of them just like other RO's that are nearly 1/10 of the price. The filters cost over \$100 where others are \$50. The K5

Page 147/151

performs very much the same as most other RO's and is very expensive to repair.

The Kinetico K5 Reverse Osmosis out performs standard systems. If playback

Page 148/151

doesn't begin shortly, try restarting your device. Videos you watch may be added to the TV's watch history and influence TV recommendations. To avoid this, cancel and sign in to YouTube

Page 149/151

on your
computer.

The Kinetico K5
Drinking Water
Station is a
seven-stage
reverse osmosis
system featuring
QuickFlo
technology to
provide a
constant flow of

high-quality
water whenever
you need it. In
fact, Kinetico's
K5 produces more
water faster
than any other
reverse osmosis
system in its
class.
