Bridges are some of the most fascinating structures in our landscape, and they come in all forms. From towering suspension bridges to humble stone crossings, this book visits them all in sweet, bouncing text with expository sidebars. But while bridges can be quite grand, this reminds us that their main purpose is bringing people together. This is perfect for budding architects, as well as readers who can relate to having loved ones who live far away.

Amazing women of the Bible come to life through age-appropriate puzzles, activity pages, and 50 reusable stickers in these friendly and fun sticker and activity book featuring The Beginner's Bible classic art and simply written content. Children will love learning about Deborah, Ruth and Naomi, Queen Esther and more as they delight in the stories, art, and activities in The Beginner's Bible Super Girls from the Bible Sticker and Activity Book. Students thrive in classrooms where they feel safe, welcome, and supported. Building a sense of community and teamwork is an effective means of facilitating student success. Burns skillfully blends community-building activities with real classroom content, providing students with opportunities to practice language skills while acclimatizing to the classroom. While intended primarily for language arts and English as a second language classrooms,

Burns' s activities readily adapt to a range of disciplines and age groups. Beginning with a section on setting classroom and instructor expectations, Burns moves on to team-building exercises focused on lesson content. His section on getting-to-know-you activities is designed to foster a sense of belonging, while the five get-to-know-your-teacher exercises introduce you to your students in a fun, relaxed manner. Supported by information on material requirements, time limits, and resources, Classroom Community Builders provides handouts and worksheets, available both within the book and online, offering new ideas to experienced and novice instructors alike.

Employ cognitive theory in the classroom every day Research into how we learn has opened the door for utilizing cognitive theory to facilitate better student learning. But that's easier said than done. Many books about cognitive theory introduce radical but impractical theories, failing to make the connection to the classroom. In *Small Teaching*, James Lang presents a strategy for improving student learning with a series of modest but powerful changes that make a big difference—many of which can be put into practice in a single class period. These strategies are designed to bridge the chasm between primary research and the classroom environment in a way that can be implemented by any faculty in any discipline, and even integrated into pre-existing teaching techniques. Learn, for example: How does one become good at retrieving

knowledge from memory? How does making predictions now help us learn in the future? How do instructors instill fixed or growth mindsets in their students? Each chapter introduces a basic concept in cognitive theory, explains when and how it should be employed, and provides firm examples of how the intervention has been or could be used in a variety of disciplines. Small teaching techniques include brief classroom or online learning activities, one-time interventions, and small modifications in course design or communication with students.

The Family Under the Bridge

"Readers will be captivated by this beautifully written novel about young people who must use their instincts and grit to survive. Padma infuses her story with hope and bravery that will inspire readers."--Aisha Saeed, author of the New York Times Bestseller *Amal Unbound* Four determined homeless children make a life for themselves in Padma Venkatraman's stirring middle-grade debut. Life is harsh on the teeming streets of Chennai, India, so when runaway sisters Viji and Rukku arrive, their prospects look grim. Very quickly, eleven-year-old Viji discovers how vulnerable they are in this uncaring, dangerous world. Fortunately, the girls find

shelter--and friendship--on an abandoned bridge that's also the hideout of Muthi and Arul, two homeless boys, and the four of them soon form a family of sorts. And while making their living scavenging the city's trash heaps is the pits, the kids find plenty to take pride in, too. After all, they are now the bosses of themselves and no longer dependent on untrustworthy adults. But when illness strikes, Viji must decide whether to risk seeking help from strangers or to keep holding on to their fragile, hard-fought freedom.

The second book in this ESL series for non-English speaking children is designed to prepare students to read in English with emphasis on identifying letters of the alphabet with the basic consonant and vowel sounds.

Arranged by the content strands - Number and Algebra, Measurement and Geometry, Statistics and Probability - giving teachers independence and flexibility in constructing a week-by-week maths program. Practical and hands-on activities encourage students to

develop their own strategies as confident learners. Graded activities provide effective scaffolding for students and allow teachers to cater for mixed ability classes. Discussion icons are indicated throughout the books to highlight areas where class or small group discussion can take place. Revision boxes contain information to help students recall past learning, or offer hints and further explanation of difficult concepts. Full-colour photos and illustrations link learning activities to every day contexts to help make maths meaningful. Activities are related to Cambridge Maths-in-a-Box, which enriches the program with contextual activities and saves teachers time with planning.

Life is full of tough calls and daunting decisions. The question isn't if you'll face a big decision in the future, but how you'll face the tough call that's guaranteed to come your way. Think about it. There are wedding proposals to ponder, college applications to submit, career moves to make, homes to sell, and confrontations to consider. And, knowing how poorly things could go, we sometimes find ourselves facing these decisions with a deep fear of future regret. The pressure is on. Or is it? Short and straightforward, yet full of practical insight and spiritual truths, *Tough Call*, will help you see that the Christian faith offers a mindset to confidently and joyfully make your next big decision. More importantly you'll see that you can face life with your fears recognized, your peace maximized, and your hope anchored in something greater than your ability to "get it right." Readers familiar with authors like Acuff, Chan, and Tchividjian will resonate with Matt Popovits's witty, practical, and gospel-centered take

on complicated topics. Tough Call is an enjoyable and essential read for any and all facing a major decision.

This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable

pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - 'ME LADDIE'. Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and &quote;needs no help from anyone, thank you&quote; - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her

belief's about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.

This is the delightfully warm and enjoyable story of an old

Parisian named Armand, who relished his solitary life. Children, he said, were like starlings, and one was better off without them. But the children who lived under the bridge recognized a true friend when they met one, even if the friend seemed a trifle unwilling at the start. And it did not take Armand very long to realize that he had gotten himself ready-made family; one that he loved with all his heart, and one for whom he would have to find a better home than the bridge. Armand and the children's adventures around Paris -- complete with gypsies and a Santa Claus -- make a story which children will treasure.

Are you tired of learning/teaching bridge from a cookbook? Tired of memorizing how many points you need to bid this or that? Do you have trouble determining if you have a minimum, medium or maximum hand and what you are supposed to do if it fits in a particular category? Then Yes, No or Maybe is what you need. This is a series of three textbooks and companion workbooks for beginning bridge students. The series uses a logical paradigm for making bidding decisions by formulating two basic questions: 'Do we have a fit in a major suit?' and 'Do we want to be in a game contract?' All partnership bidding after an opening bid or intervention is guided by the answers (Yes, No or Maybe) to these questions and some fundamental bidding guidelines. This workbook accompanies the first textbook, Introduction and Card Play Basics,

which covers the mechanics of the game, a little bridge history, scoring, hand valuation and preferred contracts, along with the basics of declarer play and defense. No real bidding is included but MiniBridge or a variant is used for sample and practice deals. The Yes, No, Maybe bidding concepts are introduced for the determination of preferred contracts.

The can-do heroine from the acclaimed *The Little Red Fort* returns in this fresh, feminist spin on *The Three Billy Goats Gruff*. "Readers will happily discover that trip-trapping to friendship and cooperation is indeed a pie-worthy prize." -- *Kirkus Reviews* Ruby's mind is always full of ideas. One day, she spies some blueberries across the creek and invites her brothers to pick some. Unfortunately, the bridge is blocked by scary Santiago. "I'm the boss, and you can't cross... unless you give me a snack," he demands. One by one, the brothers scamper across, promising Santiago that the next sibling has a better snack. When at last it's Ruby's turn, she refuses to be bullied and creates her own way to cross the creek. This modern spin on a classic tale weaves folklore, feminism, STEM, and a Latinx cast into a delightful read-aloud that celebrates creativity and building bridges of friendship and community.
