The product of
more than twenty
years studying
these fascinating
creatures,
Macchiavellian
Intelligence
caricatures a
society that is as
much human as
monkey, with

Page 2/106

hierarchies and power struggles that would impress Machiavelli himself. High-status macaques, for instance, maintain their rank through deft uses of violence and manipulation, while altruism is

almost unknown
and relationships
are perpetually
subject to the
cruel laws of the
market.
