UNIT 1 Macroeconomics LESSON 1 - Denton ISD

In this lesson from Advanced Placement Economics (4th Edition), students examine the effect of net capital flows on the macroeconomy through the loanable funds market. The loanable funds market is used to analyze capital flows in an economy because financial capital affects the amount of money available for borrowers and shifts the supply curve for loanable funds.

No society has ever had enough resources to produce all the goods and services its members wanted. ... Introduction to Macroeconomics: Student Workbook, Fifteenth edition, Bloomington, IN, 1993.

Advanced Placement Economics: Macroeconomics

Economics is the study of how individuals, businesses, and governments make decisions about the allocation of scarce resources. The economics course provides students with a basic foundation in the field of economics. The course has five sections: fundamental concepts, microeconomics, macroeconomics, international economics, and personal finance.
