"Christopher W. Merritt combines and highlights the historical and archaeological records of the Overseas Chinese experience in Montana, beginning with the arrival of Chinese immigrants in 1862 to the repeal of the Chinese Exclusion Act in 1943."--Provided by publisher.

It's a simple, best-selling combination that has worked for thousands of students — short, accessible essays and helpful, thorough writing instruction.

Models for Writers continues to offer thought-provoking selections organized to demonstrate not only the rhetorical patterns that students will use in their own essays but also the elements and language that will make those essays effective. This edition offers more coverage of the key elements of academic writing, including new strategies for writing a research paper and a section on writing a reflective essay. Read the preface.

The mega-bestselling novel that made Jeffrey Archer a star, Kane and Abel, "a sprawling blockbuster!" —Publishers Weekly
TWO STRANGERS BORN WORLDS APART. ONE DESTINY THAT WOULD DEFINE THEM BOTH... William Lowell Kane and Abel Rosnovski, one the son of a Boston millionaire, the other a penniless Polish immigrant—born on the same day near the turn of the century on opposite sides of the world—are brought together by fate and the quest of a dream. Two men—ambitious, powerful, ruthless—are locked in a relentless struggle to build an empire, fueled by their all-consuming hatred. Over sixty years and three generations, through war, marriage, fortune, and disaster, Kane and Abel battle for the success and triumph that only one man can have. "Archer is a master entertainer." —Time

Earth Day celebrates our beautiful planet and calls us to act on its behalf. Some people spend the day planting flowers or trees.

Others organize neighborhood clean-ups, go on nature walks, or make recycled crafts. Readers will discover how a shared holiday can have multiple traditions and be celebrated in all sorts of ways.

Chinese Experience in Montana, 1862 – 1943

In July 1863 New York City experienced widespread rioting unparalleled in the history of the nation. Here for the first time is a scholarly analysis of the Draft Riots, dealing with motives and with the reasons for the recurring civil disorders in nineteenth-century New York: the appalling living conditions, the corruption of the civic government, and the geographical and economic factors that led up to the social upheaval.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

Presents instruction on word usage in current writing, suggests stylistic improvements, and answers common grammar questions.

Fort Loudoun is located in East Tennessee, on the south side of the Little Tennessee River about four miles east of Vonore, Tennessee. Field crews excavated the site from May 1975-August 1976. A research laboratory was established on the Vanderbilt University campus for storage, processing and analysis of the artifactual materials. Detailed records, drawings, maps, charts and photographs of these findings and of fort reconstruction and interpretation are included in this publication sponsored by the Tennessee Wars Commission.

Nod Away is set on a near-future version of earth. A deep space transport has been developed to take a small crew to an earth-like, habitable planet in a nearby system in an attempt to begin colonization/repopulation. The internet is now telepathic and referred to as the "innernet." When the hub is revealed to be a human child, Melody McCabe is hired to develop the new nexus on the second International Space Station. Working within the structure of sci-fi, Nod Away moves back and forth between physical and psychological worlds, utilizing traditional and abstract storytelling styles to explore what consciousness could be, where it could possibly be located, and what function or point it might serve.

Traces the history of FDNY from 1865-2000, with 2000-2002 update.

This is the second edition of the landmark book that standardized the language and terminology used throughout the criminal justice system. It classifies the critical characteristics of the perpetrators and victims of major crimes—murder, arson, sexual assault, and nonlethal acts—based on the motivation of the offender. The second edition contains new classifications on computer crimes, religion-extremist murder, and elder female sexual homicide. This edition also contains new information on stalking and child abduction, the use of biological agents as weapons, cybercrimes, Internet child sex offenders, burglary and rape, and homicidal poisoning. In addition, many of the case studies and crime statistics have been updated.

DigiCat Publishing presents to you this special edition of "The Making of an American" by Jacob A. Riis. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Models for Writers

History of Jefferson County, Illinois

Extract from the Preface: '1. What the book covers This book is about day trading. Using the price action itself, rather than any of the usual array of indicators based on it. The US 30-year Treasury Bond Futures is the favoured instrument - the T-Bonds, as they are commonly called. There are good reasons for choosing this instrument to learn to trade - one being that they do not require a detailed knowledge of bonds themselves. The other attractions, whether you are a beginner or a seasoned veteran, are to do with liquidity, range, behaviour, patterns and the price action displayed at the key support and resistance points it encounters. Most days the T-bonds offer trading opportunities which can be taken within a money management environment that can give you an edge for profit - and this book has been designed to show you how to do just that. Fully illustrated with charts taken from a live trading screen and displayed in exactly the way you would have seen them for yourself, on your computer monitor. What you see is not just what happened, in detail, but also clear evidence of just how you could have profited yourself from each trading situation. 2. Who the book is for This book has been written for anyone wishing to day trade, using a discretionary method, rather than a mechanical system. It is a learning tool which should commend itself to the experienced trader, as much as to someone new to this business. Certainly I hope that any raw recruit would find it an easy read, even if it took a while longer to digest the subject matter as a whole. 3. How the book is structured The seasoned trader will probably start by skip reading, to see if he can cut to the chase quickly. The less experienced will immediately see - from the detail of the charts alone - that there is a great deal of info From an acclaimed Financial Times columnist and CNN analyst comes a penetrating indictment of how today's biggest tech companies are hijacking data, livelihoods, and people's minds.
