

## Manual Transmission Fluid Change

Jiffy Lube® removes the used fluid and replaces it with new transmission fluid that meets or exceeds your manufacturer’s specifications. HOW IT WORKS: Transmission fluid helps lubricate, cool and clean internal components of the transmission. It also helps maintain the hydraulic pressure necessary for the transmission to function properly. HOW OFTEN: The typical manufacturer of a manual vehicle will tell you to change your fluid at around 30,000 to 60,000 miles. Of course, every make and model will likely have a different recommendation, but one that is within this range of miles. In some cases, you might drive your vehicle a lot and constantly put stress on your manual transmission.

How Often Do I Need to Replace the Transmission Fluid ...
