" This is a gorgeous, lyrical, hilarious, important book. . . . Read this and you may find yourself instinctively beginning to heal old wounds: in yourself, in others, and just maybe in the cathedral of the wild that is our true home. "—Martha Beck, author of Finding Your Own North Star
Boyd Varty had an unconventional upbringing. He grew up on Londolozu Game Reserve in South Africa, a place where man and nature strive for balance, where perils exist alongside wonders. Founded more than eighty years ago as a hunting ground, Londolozu was transformed into a nature reserve beginning in 1973 by Varty's father and uncle, visionaries of the restoration movement. But it wasn't just a sanctuary for the animals; it was also a place for ravaged land to flourish again and for the human spirit to be restored. When Nelson Mandela was released after twenty-seven years of imprisonment, he came to the reserve to recover. Cathedral of the Wild is Varty's memoir of his life in this exquisite and vast refuge. At Londolozu, Varty gained the confidence that emerges from living in Africa. " We came out strong and largely unafraid of life, " he writes, " with the full knowledge of its dangers. " It was there that young Boyd and his equally adventurous sister learned to track animals, raised leopard and lion cubs, followed their larger-than-life uncle on his many adventures filming wildlife, and became one with the land. Varty survived a harrowing black mamba encounter, a debilitating bout with malaria, even a vicious crocodile attack, but his biggest challenge was a personal crisis of purpose. An intense spiritual quest takes him across the globe and back again—to reconnect with nature and " rediscover the track. " Cathedral of the Wild is a story of transformation that inspires a great appreciation for the beauty and order of the natural world. With conviction, hope, and humor, Varty makes a passionate claim for the power of the wild to restore the human spirit.
Praise for Cathedral of the Wild " Extremely touching . . . a book about growth and hope. " —The New York Times " It made me cry with its hard-won truths about human and animal nature. . . . Both funny and deeply moving, this book belongs on the shelf of everyone who seeks healing in wilderness. " —BookPage

Ultimately, a new order will rise from the smouldering ashes of war, but not until Koois; and Thosi; a game ranger, go head-to-head with the elements of darkness that invade South Africa's Kruger National Park. When several tourists flee into the vast wilderness they soon learn that the key to survival lies within themselves, as they become pawns in an increasingly deadly tango with ferocious beasts, rebel soldiers, an international poaching syndicate, and evil witchdoctors. This epic tale has elements of courage, love, loyalty, and haunting heartbreak that shine brightly through the flames of bloody revolution.

Butterflies of the Kruger National Park and Surrounds enables identification of these colourful creatures and hopes to promote general interest in the natural world. A lavish and fascinating introduction raises topics such as classification of Lepidoptera, butterfly behavior, names, biology and life cycle, flower adaptations, larval host plants, etc. Each family is first described, then the subfamily, followed by the genus and finally the species. Each of the known KNP butterfly species is dealt with on its own page, with its common and scientific names, life history, etymology and larval host plants. On the opposite page is a gallery of photographs of the butterfly in its environment, often complemented with life cycle and larval host plant photographs. A distribution map is provided for each butterfly species, with red dots indicating KNP rest camps where the butterfly is found, and a pie chart showing the butterfly's status – how rare or how common it is.

When Koble Kruger, her game-ranger husband and their three young daughters moved to one of the most isolated corners of the world – a remote ranger station in the Mahlangueni region of South Africa's vast Kruger National Park – she might have worried that she would become engulfed with loneliness and boredom. Yet, for Koble and her family, the seventeen years spent in this spectacularly beautiful park proved to be the most magical – and occasionally the most hair-raising – of their lives. Koble recounts their enchanting adventures and extraordinary experiences in this vast reserve – a place where, bathed in golden sunlight, hippos basked in the glittering waters of the Letaba River, storks and herons perched along the shoreline, and fruit bats hung in the sausage trees. But as the Krugers settled in, they discovered that not all was peace and harmony. They soon became accustomed to living with the unexpected: the sneaky hyenas who stole blankets and cooking pots, the sinister-looking pythons that slithered into the house, and the usually placid elephants who grew foul-tempered in the violent heat of the summer. And one terrible day, a lion attacked Kobus in the bush and nearly killed him. Yet nothing prepared the Krugers for their greatest adventure of all, the raising of an orphaned prince, a lion cub who when they found him, was only a few days old and on the verge of death. Reared on a cocktail of love and bottles of fat-enriched milk, Leo soon became an affectionate, rambunctious and adored member of the family. It is the rearing of this young king, and the hilarious endeavours to teach him to become a 'real' lion who could survive with his own kind in the wild, that lie at the heart of this endearing memoir. It is a memoir of a magical place and time that can never be recaptured.

Extraordinary Stories from Ordinary Visitors to the Kruger National Park
A double-sided folding map of the Kruger National Park (unfolding to 969 x 700mm). As you open the map you will find the open and closing times of the camps and park gates. Unfolding the map further shows the key to the symbols plus the scale and a location map helping to plan your route to the park from the Gauteng province. The map then unfolds fully to reveal the Southern half of the Kruger National Park at 1: 250 000 in detail and shows vegetation, which can be referred to when using the guide information for trees, mammals and birds at the bottom of the map. There is a list of mammals that inhabit the park, 19 photographs of birds, mammals and scenery plus layout plans of nine camps from Crocodile Bridge north to Olifants. On the reverse there is a detailed map of the Northern half of the Kruger National Park at 1:250 000, plus 30 photographs, four camp layouts (Setaba to Punda Maria) and a list of birds found in the park. There is also guide information for trees, mammals and birds in the north, town plans of Nelspruit and Polokwane (Pietersburg) and a map of the Blydeversipooort Nature Reserve for those touring outside of the park. The inside front cover has a distance chart in colour showing the distance between gates, camps, bushveld camps and picnic areas, together with average road speeds on tarred and dirt roads, which makes it easy to estimate the time taken to drive between points. In short, all you need for your next trip to the Kruger.
