Clinical days and hours vary from 8-12 hours a day as determined by clinical availability. The nursing faculty believes that students must be present in order to learn; therefore, punctual daily attendance is an expectation for all clinical rotations. Clinical absences may constitute failing the

### STUDENT GUIDELINES FOR CLINICAL EXPERIENCE 2019-2020

In my experience, OB rotation was busy not boring. They'll give you a mother-baby "couplet" to care for, and the mother needs the same assessments & charting as a med-surg patient, PLUS all the stuff that goes with OB. The baby needs an assessment, vitals, maybe feeding & changing (often the mother does this), and a hepatitis B vaccine.

### Maternity clinical rotation advice - General Students ...

AU male baccalaureate nursing students (N = 12) who had completed their maternal-child course and clinical rotation at a private university in southeastern Pennsylvania were invited to participate. Eight male student nurses, ranging in age from 22 to 46, comprised the purposive sample.

### Perceptions of the Maternal-Child Clinical Rotation: The ...

The faculty member must also prepare students for the DEU experience. The maternal–newborn clinical rotation is unique because students need to gain experience caring for women during the antepartum, intrapartum, and postpartum periods and also caring for newborns.
