

Math 171 Derivative Answer

How I Teach — Calculus

The answer is a fake force. Yes ... Acceleration is defined as the rate of change of velocity (in calculus, this would be the derivative of velocity with respect to time). But velocity is a vector.

Grace Pignolo: Latin unlocks the past and informs the future

Charalambous: Two plus two equals five: 1984 or math 'equity'?

In a series of stories, UDaily speaks with University of Delaware professors who teach courses commonly taken by students during their first year on campus. In this story, Associate Professor Dawn ...

Math 171 Derivative Answer

In calculus, we have a special word to describe rates of change: derivative. One of the notations used to express a derivative (rate of change) appears as a fraction. For example, if the variable S ...

Calculus for Electric Circuits
