*High Pulse Rate, Low Blood Pressure | Mayo Clinic Connect*

Ephedra is linked to high blood pressure, heart attack, stroke and other serious health problems. Bitter orange: This supplement fills the niche vacated by ephedra in some weight-loss products. But that doesn't necessarily mean it's safer. Bitter orange can increase heart rate and blood pressure and has been linked to strokes and heart attacks.

Clinic On High Blood~~

High blood pressure is a common condition  
in which the long-term force of the blood  
against your artery walls is high enough  
that it may eventually cause health  
problems, such as heart disease. Blood

pressure is determined both by the amount of blood your heart pumps and the amount of resistance to blood flow in your arteries.

*High blood pressure (hypertension) - Mayo Clinic - Mayo Clinic*

By Mayo Clinic Staff If you've been diagnosed with high blood pressure, you might be worried about taking medication to bring your numbers down. Lifestyle plays an important role in treating your high blood pressure.
