**Mindfulness + DBT - Dialectical Behavior Therapy**

Mindful eating applies the concepts of mindfulness to food and the process of eating. Through this practice, you foster an open, nonjudgmental stance towards food and eating, increasing compassion and letting go of guilt and shame. This approach offers a radical alternative to dieting and any meal plan that restricts intake in any way.

**Mindful Eating at Centered Ground**

Practicing mindfulness helps people with and without mental health conditions to improve well-being, attention to the present moment, and increasing positive emotional experiences while decreasing negative emotions and distress.
