the author

reflect a real

Follow two  
abolitionists who  
fought one of the  
most shockingly  
persistent evils of  
the world: human  
trafficking and  
sexual  
exploitation of  
slaves. Told in

alternating  
chapters from  
perspectives  
spanning more  
than a century  
apart, read the  
riveting 19th  
century first-hand  
account of Harriet  
Jacobs and the  
modern-day  
eyewitness  
account of

*Page 18/94*

Timothy Ballard.  
Harriet Jacobs  
was an African-  
American, born  
into slavery in  
North Carolina in  
1813. She  
thwarted the  
sexual advances  
of her master for  
years until she  
escaped and hid in  
the attic crawl

*Page 19/94*

space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open

*Page 20/94*

discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black

*Page 21/94*

refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors

*Page 22/94*

and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world

*Page 23/94*

countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti.

Section 2 features the lives of five abolitionists, a mix of heroes from past to present,

*Page 24/94*

who call us to  
action and teach  
us life lessons  
based on their  
own experiences:

Harriet

Little Mia--the

sister who saved  
her little brother;  
Guesno  
Mardy--the  
Haitian father who  
lost his son to  
slave traders; and  
Harriet Jacobs--a  
teacher for us all.

Affective Health and  
Masculinities in South  
Africa explores how  
different masculinities  
modulate substance use,  
interpersonal violence,

*Page 47/94*

suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men ' s struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social

*Page 48/94*

assemblages, the study shows how affective health problems are tied to modern individualism rather than African ' tradition ' that has become a clich é in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and

*Page 49/94*

apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men ' s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health.

*Page 50/94*

Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences.

*Page 51/94*

Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Hijazis were absorbed in to a new state whose codes of behavior and rules were determined by the Najdis, an ascetic desert people, from whom the Al Saud family came. But the Saudi rulers failed to fully integrate the Hijaz, which retains a distinctive identity to this day. In "Cradle of

emphasise their regional heritage in religious ritual, food, dress and language as a response to the 'Najdification' of everyday life. The Hijazi experience shows the vitality of cultural diversity in the face of political repression in the Arab world.

These nine essays explore new directions and ways to pursue the elusive Jack Tar--the common sailor in the early modern world. We see him as a

*Page 83/94*

pirate, learn something of the ships he sailed, and share his experience in the Revolutionary War and War of 1812. We also see him as a spinner of yarns--a great story teller--helping to mold his own

and our national identity, while contributing to the development of a unique American literature. We see some Jacks seeking social mobility. We see others challenging authority aboard ships and during

*Page 85/94*

shipwrecks. While Jack in some ways remains elusive, and it is impossible to calculate his movements, as sailor Nathaniel Ames wrote, these essays move us closer to an understanding of his eccentric path.
