An electrifying story of  
the sensational  
murder trial that  
divided a city and  
ignited the civil rights  
struggle In 1925,  
Detroit was a smoky

*Page 2/168*

swirl of jazz and  
speakeasies, assembly  
lines and fistfights.  
The advent of  
automobiles had  
brought workers from  
around the globe to  
compete for  
manufacturing jobs,  
and tensions often  
flared with the KKK  
in ascendance and  
violence rising. Ossian

*Page 3/168*

Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his

defenders, had  
accidentally killed one  
of the whites  
threatening their lives  
and homes. And so it  
began-a chain of  
events that brought  
America's greatest  
attorney, Clarence  
Darrow, into the fray  
and transformed  
Sweet into a  
controversial symbol

of equality. Historian  
Kevin Boyle weaves  
the police  
investigation and  
courtroom drama of  
Sweet's murder trial  
into an unforgettable  
tapestry of narrative  
history that  
documents the volatile  
America of the 1920s  
and movingly re-  
creates the Sweet

family's journey from slavery through the Great Migration to the middle class.

Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. Arc of Justice is the winner of the 2004 National

complete story of the  
courageous girl whose

*Page 105/168*

life, which ended through the effects of war, inspired a worldwide call for peace. In this book, author Sue DiCicco and Sadako's older brother Masahiro tell her complete story in English for the first time--how Sadako's courage throughout her illness inspired family and friends, and how she became a symbol of all

people, especially children, who suffer from the impact of war. Her life and her death carry a message: we must have a wholehearted desire for peace and be willing to work together to achieve it. Sadako Sasaki was two years old when the atomic bomb was dropped on her city of Hiroshima at the end of World War II. Ten years

*Page 107/168*

later, just as life was starting to feel almost normal again, this athletic and enthusiastic girl was fighting a war of a different kind. One of many children affected by the bomb, she had contracted leukemia. Patient and determined, Sadako set herself the task of folding 1000 paper cranes in the hope that her wish to be made

*Page 108/168*

well again would be granted. Illustrations and personal family photos give a glimpse into Sadako's life and the horrors of war. Proceeds from this book are shared equally between The Sadako Legacy NPO and The Peace Crane Project.

origami art is as close as the nearest dollar bill. Won Park has taken the ancient art of origami to a whole new level. Using American currency, Park transforms dollar bills into creative works of art. He relies on the fibrous quality of the paper to fold, bend and twist hundreds of times

*Page 122/168*

per model without tearing. With no cutting and no pasting, Park is able to incorporate the details on the bills into his model designs. His signature koi fish is folded in such a way that the patterns on the dollar bill become the scales on the fish, and even the facial features

fall in exactly the right place. His designs include a wide array of vehicles, animals, and mythical creatures. In this book, step-by-step instructions are provided for 20 distinct models that are bound to challenge even the most proficient folders. The challenge includes a Formula 1 race car, a

toilet, a butterfly, a koi fish, a scorpion, a sea turtle, a fox, an ox, a marlin, a car, a praying mantis, a dragon, a spider, a stag beetle, a stegosaurus, a bat, Pegasus, a fighter jet, a battle tank, and a pig. All models can be made with either one or two dollar bills. Why worry about the
