Ninth grade Lesson
Multiplying
Polynomials
Investigation
When we are adding
or subtracting 2 or

Page 17/88

more polynomials, we have to first group the same variables (arguments) that have the same degrees and then add or subtract them. For example, if we have ax^3 in one polynomial (where a is some real number), we have to group it with bx^3 from the other polynomial (where b is

Page 18/88

also some real
number).). Here is
one example with
adding polynomials
