NACE International is located in Houston, TX, but also offers classes online. This school offers training in 135 qualifications, with the most reviewed qualifications being NACE CIP Level 1, National Association of Corrosion Engineers (NACE) Certification and NACE Level 1 Certificate.

Nace Corrosion Specialist Course Manual

NACE Institute 's highest level of certification, the Corrosion Specialist certification is geared towards very experienced corrosion control personnel, with broad and extensive expertise, in both the theory and practice of multiple areas of corrosion and corrosion control, and capable of

performing work at a very advanced level.

Corrosion Specialist - NACE Institute
This Online course covers a basic but thorough review of causes of corrosion and the methods by which corrosion is identified, monitored, and controlled. The multimedia-based eCourse features on-demand viewing and bookmarking capabilities that enable you to complete the course as your schedule allows.

Basic Corrosion eCourse - NACE
Offered at dedicated training facilities in Houston and Dubai, as well as throughout the world, our courses are designed for continued, career-long

professional development and may be taken as stand-alone training or as part of the path towards achieving certification. Our extensive catalog of classes ranges from general corrosion topics to industry-specific subjects.

Courses By Program - NACE

The CP 4 – Cathodic Protection Specialist course focuses on the principles and procedures for CP design on a variety of structures for both galvanic and impressed current systems. The course discusses theoretical design concepts, considerations that influence the design (environment, structure type/materials of construction, coatings), design ...
