

## North South Trade Employment And Inequality Changing Fortunes In A Skill Driven World Ids Development Studies Series

Jobs in Auckland - Trade Me Jobs

Expansion of trade in manufactures between developed and developing countries has had a far greater effect on labour markets than earlier research suggested. In developing countries (the South), unskilled workers have benefited most from this trade, but in developed countries (the North) the gains have been concentrated on those with skills, while unskilled workers have suffered falling wages ...

The North American Free Trade Agreement (NAFTA) is unpopular with many working people in the United States, who correctly blame it for encouraging capital flight, job losses, deindustrialization, and wage suppression. President Trump has triggered the renegotiation of the agreement, which will likely conclude early next year.
