

Nous Sommes La France

This book examines the extreme right in France during the interwar period. It begins by describing the background of the French right before 1914 and then provides commentary and analysis of the broad range of the extra-parliamentary right in interwar France. Organisations such as Action Française and the militant leagues are examined as well as prominent extreme-right intellectuals such as Lucien Rebatet, Robert Brasillach and Pierre Drieu la Rochelle. The various forms of French anti-Semitism are assessed, and the book also situates the French extreme right within a broader context by assessing its impact on other European countries, including the UK. It concludes by exploring the complicated politics of wartime France where some extreme-right activists collaborated with the Nazis while others opposed them, and where few generalisations prove possible. This volume will be of great interest to scholars and students of French history, the extreme right and interwar politics.

This book, originally published in 1991, assesses how attitudes, political orientations and social values changed during the five decades after the Second World War. The case studies in the book focus on key 'sites' in political culture: in France, on the extreme right, the cinema, the impact of media personalities and changes of political discourse; in Germany, on the decline of regional identities, the emergence of specific issues and the concern of political parties with the effectiveness of language. This interdisciplinary study provides new insights into the way French and German people see themselves.

Je suis, tu es, nous sommes la France

This collection of essays investigates the fundamental role that the loss of colonial territories at the end of the Ancien Régime and post-World War II has played in shaping French memories and colonial discourses. In identifying loss and nostalgia as key tropes in cultural representations, these essays call for a re-evaluation of French colonialism as a discourse informed not just by narratives of conquest, but equally by its histories of defeat.

Each half-year consists of two volumes, *Partie médicale* and *Partie paramédicale*.

Je suis, tu es, nous sommes la France raconte le Chibani à ses petits-enfants, dans sa chambre d'hôpital. Atteint d'un mal mystérieux qu'on appelle la fatigue, persuadé qu'il va rejoindre ses ancêtres, il se hâte de transmettre son histoire, ses racines à cette jeunesse en quête d'identité. Ils sont pourtant issus de la France des couleurs, leur assure le Chibani, comme son jeune frère emporté par la tourmente de la vie des quartiers des années plus tôt. Autre temps, autre violence. Les enfants sont vite captivés par cette histoire, celle de Djamel, Osman et Caroline eux-mêmes partis à la rencontre de leur propre histoire, les uns allant interviewer les parents des autres. Autre temps autre pudeur. Je suis, tu es, nous sommes la France parce que la France des couleurs c'est la France tout court. « Sommes-nous encore en démocratie ?
Aujourd'hui, le fait même de poser la question est jugé indécemment : les citoyens n'ont aucune raison de se plaindre, eux qui vivent librement, ne sont pas en dictature. Elle paraît même suspecte, comme si s'interroger sur l'état de notre modèle démocratique signifiait en imposer un autre, autoritaire. Voilà à quoi est réduit le débat en France ; la juste mesure est la chose au monde la moins bien partagée. Face à la crise sanitaire et économique, notre vieille démocratie a certes tenu. Mais on ne mesure pas assez la défiance des peuples, comme si à aucun moment il ne fallait envisager qu'elle pût s'expliquer par le fait que ce serait la démocratie qui aurait joué contre eux. Dès lors que la révolte populaire, dont les Gilets jaunes ont constitué une première manifestation, a éclaté, nous ne pouvons ignorer la crise de la représentation que traverse notre pays ; et devons lancer une révolution raisonnable, pour faire tomber les nouvelles Bastilles. » Natacha Polony

Race on Display in 20th- and 21st-Century France argues that the way France displayed its colonized peoples in the twentieth century continues to inform how minority authors and artists make immigrants and racial and ethnic minority populations visible in contemporary France.

In *Figurations of France: Literary Nation-Building in Times of Crisis (1550-1650)*, Marcus Keller explores the often indirect and subtle ways in which key texts of early modern French literature, from Joachim Du Bellay's *Défense et illustration de la langue française* to Corneille's *Le Cid*, contribute to the fiction of France as a nation. Through his fresh take on these and other classics, he shows that they not only create the French as an imaginary community but also provide venues for an incisive critique of the political and cultural construct that underpins the modern nation-state. Current theories of nationhood, in particular the concepts of the nation form and fictive ethnicity (Étienne Balibar), inform the close readings of Du Bellay's *Défense*, Ronsard's *Discours*, d'Aubigné's *Tragiques*, Montaigne's *Essays*, Malherbe's odes, and Corneille's *Le Cid* and Horace. They reveal the imaginary power and unifying force of early modern figurations of France that come to bear in this heterogeneous corpus of French literature, with texts ranging from manifesto and epic poem to essay and tragedy. Situating each author and text in their particular historical context, the study suggests that the literary invention of France in the sixteenth and seventeenth centuries is as abundant as it is conceptually innovative: Du Bellay, for example, develops an idea of France by portraying the French language as a pruned and grafted tree while d'Aubigné proposes to think of the French as a nuclear but fatherless family. Blood functions as a highly charged metaphor of nationhood in all texts. Opening up new

perspectives on these canonical works, the focus on literary nation-building also puts them into unexpected and thought-provoking relationships to each other. Figurations of France deliberately crosses the fictive boundary between the sixteenth and the seventeenth centuries and argues that, in terms of imaginary nation-building, the contours that delineate the early modern period and separate it from what we call the modern era quickly begin to dissolve. Ultimately, the book makes the case for early modern literature as a creative and critical discourse, able to nourish and nuance our thinking about the nation as the postmodern nation-state is increasingly called into question by the economical, political, and cultural effects of globalization. Figurations of France

Literary Nation-Building in Times of Crisis (1550-1650)

Ils ont beau partir souvent à l'autre bout du monde, ils reviennent toujours en France, car c'est leur pays. Au point de porter des noms de villes françaises, bien que d'origine congolaise. Orléans et Nice sont des faux jumeaux, fille et garçon. À travers leurs aventures et leur quotidien, c'est le portrait de la jeunesse d'aujourd'hui que ce livre dresse, une jeunesse ouverte sur le monde qui ne manque pas de projets, la preuve est qu'ils prévoient d'aller en Afrique avec leur collègue !

d'étendre aux corps de fonctionnaires l'organisation syndicale, pour leur permettre de lutter contre l'arbitraire des gouvernants comme elle permet aux employés de lutter contre l'arbitraire patrouille, a trouvé une grande faveur non pas seulement dans le personnel de certaines administrations publiques, mais dans une fraction notable de l'Opinion et auprès d'esprits des plus distingués (i). Après les attentats de janvier 2015, 4 millions de Français ont défilé sous le slogan "Nous sommes la France". Mais qui est

ce "nous" ? Il est essentiel d'affirmer ce qui nous rassemble, au-delà des diversités, à travers la France et la République, pour ne pas voir les fractures se creuser et les plaies s'infecter. Ces mots résument à eux seuls la somme infinie de renoncements et de dénis qui a conduit à l'horreur. Ce "nous" est tout sauf un "nous" vain et naïf. C'est un "nous" national, souverain, multiethnique. Ce "nous" est une communauté d'héritiers, un plein existentiel, un attachement, un ancrage, une aventure commune. Bref, la France.

Focusing on Messiaen's relation to history - both his own and the history he engendered - the Messiaen Perspectives volumes convey the growing understanding of his deep and varied interconnections with his cultural milieu. Messiaen Perspectives 1: Sources and Influences examines the genesis, sources and cultural pressures that shaped Messiaen's music. Messiaen Perspectives 2: Techniques, Influence and Reception analyses Messiaen's compositional approach and the repercussions of his music. While each book offers a coherent collection in itself, together these complementary volumes elucidate how powerfully Messiaen was embedded in his time and place, and how his music resonates ever more today. Messiaen Perspectives 1: Sources and Influences presents many new primary sources, including discussion of Messiaen's birdsong cahiers, sketch and archival materials for his Prix de Rome entries and war-time Portique, along with performance practice insights and theological inspiration in works as diverse as Visions de l'Amen, Harawi, Timbres-durées and the organ Méditations. The volume places the composer within a broader historical and cultural framework than has previously been attempted, ranging from specific influences to more general contexts. As a centrepiece, the book includes an examination of the impact of one of the greatest influences upon Messiaen, Yvonne Loriod.
