MONA is a mnemonic that

Page 3/121

stands for: Morphine,
Oxygen, Nitrates, and
Aspirin. These are the four
primary interventions that are
performed when treating a
patient with Heart
Attack/Myocardial Infarction

Page 4/121

(MI). However, MONA does not represent the order in which you should administer these treatments as a nurse.

Ep2: Blood Types (Labs Nursing
Mnemonics) Picture type O as a huge
circle, like the universe, because they
are the universal donor . They can
give to everyone. However, also think
of them as the “odd man out”

Page 119/121

because they can only receive type O as well. They are universally odd, able to give to all but only receive from themselves!
