### Tanker Management and Self Assessment 3 - OCIMF

The Tanker Management Self-Assessment (TMSA) guide is a tool created by OCIMF to help ship operators measure and improve their management systems. The TMSA provides a standardised framework to assess their management processes.

### OCIMF - Oil Companies International Marine Forum - Home

The Tanker Management and Self Assessment (TMSA) programme provides companies with a means to improve and measure their own safety management systems. The programme encourages companies to assess their safety management systems (SMS) against key performance indicators (KPIs) and provides a minimum expectation (level 1) plus three levels of increasing best practice guidance.

### OCIMF - Ship Inspection Report Programme

OCIMF members have found the Tanker Management and Self Assessment (TMSA) guide a practical and valuable tool for driving up safety standards and encouraging continuous

improvement across their operations – with over 90% of tanker operators implementing the TMSA into their vessel management practices, including all of the oil majors.
