Oracle E-Business Suite
R12.2 (12.2) Documentation
Library

Oracle E-Business Suite (EBS) version 12 is an internet-enabled product that can be managed from a single site. Version 12 is current as of 2018. A company can

operate a single data center with a single database, similar to other ERP products. The suite was launched in February 2007 and contains a number of product lines which users can implement into their own businesses.

We are pleased to announce that Oracle E-Business Suite 12.2.9 is now available. Many new features and enhancements were requested and voted on by customers using the social media capabilities of the Oracle E-Business Suite Communities on My Oracle Support. Other new features and enhancements reflect continued development of themes introduced in earlier 12.2 releases, including support for modern business models, user interface modernization, and increased

operational efficiency.
