From author Kia Abdullah, *Take It Back* is a harrowing and twisting courtroom thriller that keeps you guessing until the last page is turned. One victim. Four accused. Who is telling the truth? Zara Kaleel, one of London's brightest legal minds, shattered the expectations placed on her by her family and forged a brilliant legal career. But her decisions came at a high cost, and now, battling her own demons, she has exchanged her high profile career for a job at a sexual assault center, helping victims who need her the most. Victims like Jodie Wolfe. When Jodie, a sixteen-year-old girl with facial deformities, accuses four boys in her class of an unthinkable crime, the community is torn apart. After all, these four teenage defendants are from hard-working immigrant families and they all have proven alibis. Even Jodie's best friend doesn't believe her. But Zara does—and she is determined to fight for Jodie—to find the truth in the face of public outcry. And as issues of sex, race and social justice collide, the most explosive criminal trial of the year builds to a shocking conclusion.

The true story of an ordinary woman living an extraordinary existence all over the world. "Gelman doesn't just observe the cultures she visits, she participates in them, becoming emotionally involved in the people's lives. This is an amazing travelogue." —Booklist At the age of forty-eight, on the verge of a divorce, Rita Golden Gelman left an elegant life in L.A. to follow her dream of travelling the world, connecting with people in cultures all over the globe. In 1986, Rita sold her possessions and became a nomad, living in a Zapotec village in Mexico, sleeping with sea lions on the Galapagos Islands, and residing everywhere from thatched huts to regal palaces. She has observed orangutans in the rain forest of Borneo, visited trance healers and dens of black magic, and cooked with women on fires all over the world. Rita's example encourages us all to dust off our dreams and rediscover the joy, the exuberance, and the hidden spirit that so many of us bury when we become adults.

Hey there! This is Cecilia Anne Celia Stanhope and my life is about to get really exciting! My buddy, Regina Goldie O'Brien, and I are about to find us some treasure! I know you're laughing at that idea, but this is where it gets really interesting. Goldie and I met a couple of guys, Mark and Nick, who have in their possession a sword hilt from the S.M.S. Cormorana German shipwreck that dates to World War One. Mark found the beautiful brass hilt while metal detecting on the beach on Rota, an island just north of Guam in the Marianna Island chain. The thing is the Cormoran is located in Guam's Apra Harbor. Did a typhoon wash treasure from Guam to Rota? Seems unlikely. Mark and I put two plus two together and discover that there are two ships named Cormoran. The one we're after was filled with treasure and spirited away from Germany before the end of the war. Welcome to the island of Rota. Were at a place called the Devils Jaw the final resting place of The Wreck.

The Life and Personality of the Incredible Lord Byron

This book is based on the life of a commercial diver working in the oil and gas industry from the cowboy days of the early 1980s around Asia, India, Australasia, and Africa to the safety-orientated twenty-first century in the North Sea and Gulf of Mexico. You will travel with the characters that work in this world and see the countries that they visit. It 's a wild and dangerous job, and most people would struggle to get their head around the fact that people actually do this for a living. But that 's not all. You also get to travel with a traveller, who, when not submerged under the water building or fixing oil fields, is sitting on a surfboard riding the waves that he dreamt about when he was growing up. This is proof that dreams can turn into reality if you want to push yourself over the edge of your safety zone. Dreams become reality if you work on it and face your fears. Give it a shot and see how you go.

Diving tourism has seen such growth in the past decade that the World Tourism Organization suggests it will soon become as important as ski tourism. According to a WTO estimate, there are now 5-7 million active certified divers in the world. Despite its development as a mass tourism activity, its dynamic growth and great economic importance, particularly for island destinations in the tropics, surprisingly few scientific publications address this form of special-interest tourism. In the light of this, " New Frontiers in Marine Tourism " is the first attempt to describe and analyse this tourism sector comprehensively. The first part of the book is devoted to an overview of the dive sector, addressing different types of diving locations and their particular characteristics, the geographical distribution of dive locations, the origins of dive tourists, as well as the growth and economic significance of diving tourism in destinations worldwide. In its second section, the book outlines different motivations and typologies of diving tourists, their learning behaviour, knowledge of marine environments, and their interaction with flora and fauna. The third section focuses on diver satisfaction, attitudes and preferences, diver education and interpretation, compliance with regulations by divers and tour operators, environmental impacts, and aspects of risk and health, thus highlighting a variety of pressing topics related to the management of diving tourism. * First book of its kind to address the rapidly growing area of diving tourism * Contributions from academic experts in the field, it addresses hot issues such as environmental impacts, health and safety, education, and economic factors and impacts. * Brilliantly edited, it represents a coherent and cohesive collection of critically important issues in this area.
