"Interpreting American Democracy in France is a study of the French savant, liberal, politician, and Americanist Edouard Laboulaye. Laboulaye, who was a professor at the College de France, is perhaps best known in America today as president of the Union Franco-Americaine, which raised funds in France for the Statute of Liberty. He was also well known to Americans in the nineteenth century, particularly for his staunch support of the Union in the American Civil War. He and his circle influenced French public opinion and were instrumental in preventing the

government of Napoleon III from recognizing the Confederacy." "After the Revolutions of 1848, the aftermath of which disillusioned him, a dominant theme in Laboulaye's writings was that America provided France with a model constitution that guaranteed individual liberties and a stable political system; it was his great hope that his country would follow this example. As France's leading Americanist, Laboulaye's energies were devoted to lectures on American history and politics and work on behalf of the North during the Civil War. He was also a translator of the works of those Americans for whom he had a special devotion: Franklin, Channing, and Mann. As a founding father of the Third Republic, Laboulaye drew great satisfaction from the fact that some

principles drawn from the American political tradition were embodied in its constitutional laws. Additionally, Laboulaye was the first Frenchman to give a course on American history at a French university, and he later published a three-volume history of the United States, which stands as his masterpiece. He was a member of the liberal opposition to Napoleon III and after 1870 became active in the Third Republic, serving as deputy and later senator for life." "In France Laboulaye is primarily known as a professor at the respected College de France, a position he maintained throughout his entire career, and as a member of the Institut de France. He was also president of the French Anti-Slavery Society. Laboulaye was, in fact, a savant of almost universal

interests who held a place at the center of French intellectual life during the Second Empire and the early Third Republic. His bibliography, comprised of books, pamphlets, essays, children's stories, and articles, totals over two hundred entries. His final years as a senator for life were devoted in large part to a successful fundraising campaign for the Statue of Liberty, which he did not live to see erected in New York Harbor, and to carrying on the fight for political liberty as he envisioned it." "This book is based on extensive research into the unpublished papers of Laboulaye, which are still in his family's possession, and manuscripts in other depositories in France and the United States."--BOOK JACKET. When Paris Sizzled

Anna and the French Kiss
The French Revolution: A History
This brilliant blend of history, biography, and criticism explores the seminal figures of twentieth-century French art—Matisse, Picasso, Derain, L é ger, Dufy, Braque, Giacometti, Balthus, and H é lion—and the vital art world in which they thrived. The ten interlocking essays in this important book include radical new evaluations of Derain, L é ger, and Dufy, and penetrating studies of the final works of Picasso and Braque. Paris Without End, Jed Perl ’ s first book, is now celebrating its twenty-fifth anniversary and is essential reading for anyone passionate about modern art. Roberta Smith called it “ a quiet, cogent tour de force. . . . As one critic ’ s

demonstration of what he considers the best in art and the best way to write about it, this book sets a high standard. ” Hilton Kramer also noted, “ Everyone who cares about the art of the twentieth century will find something to disagree with in this book—its many unorthodox judgments are bound to be controversial—but that, in my view, is a mark of the book ’ s importance. ”

The essays in this wide-ranging text capture the theoretical range and scholarly rigor of criticism that has fundamentally transformed the study of French Impressionist and Post-Impressionist art.

State Power, Stigmatization, and Youth Resistance Culture in the French Banlieues: Uncanny

Citizenship foregrounds the literary, sociological, and political structures of urban literature in France. It uses postcolonial theory, sociology, and political philosophy to investigate the modalities surrounding the question of citizenship in a country where citizens of African descent are not only considered a threat to national identity, but also caught between inclusion and exclusion. By examining the literary, sociological, and political structures of urban literatures produced after the 2005 riots, this book interrogates the questions of citizenship, belonging, and coexistence in a context where literature from the "periphery" has become a site where "central" political power and "mainstream" French literary canons are contested.

Moreover, these productions clearly reveal an unexplored correlation between geo-aesthetics and contemporary French national geopolitics. Ultimately, this book is a plea for a serious approach to social formation in postcolonial France in a way that transcends skin color, and instead is based on a shared colonial past, as well as current social disqualifications.

And educated people, who should be on his side, acquiesce in the process, because they know nothing about him and consequently are afraid of him." "It is worth saying something about the social position of beggars, for when one has consorted with them, and found that they are ordinary human beings, one cannot help being struck by the curious attitude that society takes towards them. People seem to feel that there is some essential difference between beggars and ordinary 'working' men. They are a race apart--outcasts, like criminals and prostitutes. Working men 'work', beggars do not 'work'; they are

parasites, worthless in their very nature. It is taken for granted that a beggar does not 'earn' his living, as a bricklayer or a literary critic 'earns' his. He is a mere social excrescence, tolerated because we live in a humane age, but essentially despicable. The emergence and disintegration of states, often under conditions of appalling violence, is a problem of primary importance in the world. Chad's long experience of civil strife and foreign intervention illustrates some of the fundamental difficulties involved in the attempt to achieve political stability through armed intervention. Covering Chad's thirty years of civil strife, *Limits of Anarchy* looks at foreign intervention in Chad's civil war and the effects of such

intervention on state construction. The first major study of Chad to appear in English for many years, the book pays particular attention to French, Chadian, and other African political reflections on the problem of Chad. Chadians still hope to construct a viable national state. Nolutshungu looks at their rival approaches to state building under external constraints and at reasons for their failure.

In nineteenth-century Paris, passionate involvement with revolution turned the city into an engrossing object of cultural speculation. For writers caught between an explosive past and a bewildering future, revolution offered a virtuoso metaphor by which the city could be known and a vital principle through which it could be portrayed. In this engaging book, Priscilla Ferguson locates the originality and modernity of nineteenth-century French literature in the intersection of the city with revolution. A cultural geography, *Paris as Revolution* "reads" the nineteenth-century

city not in literary works alone but across a broad spectrum of urban icons and narratives. Ferguson moves easily between literary and cultural history and between semiotic and sociological analysis to underscore the movement and change that fueled the powerful narratives defining the century, the city, and their literature. In her understanding and reconstruction of the guidebooks of Mercier, Hugo, Vallès, and others, alongside the novels of Flaubert, Hugo, Vallès, and Zola, Ferguson reveals that these works are themselves revolutionary performances, ones that

challenged the modernizing city even as they transcribed its emergence. Distinguished historians and political scientists on both sides of the Atlantic, as well as

former German foreign minister Hans-Dietrich Genscher, are the contributors to *No End to Alliance*. The book focuses on some crucial issues in transatlantic relations in the past, present, and future, with emphasis on America's relations with West Germany, Britain, France, and Scandinavia. While the contributors hold somewhat different views, the emphasis is on the remarkable strength and duration of the Atlantic alliance.

"A series of linked essays that considers different aspects of Matisse's life and work, revealing how the artist worked against many of the main tenets of modernism"--Provided by publisher.

Every artist has a dream project an enterprise that he or she has continuously taken up but never

completed. Via archived notes and drafts, a retrospective reconstitution of such projects can serve as a key for better understanding the authors artistic corpus. The present study reaches out to the authorship of Paul Claudel, Jean Genet, and Federico Fellini. Claudel deferred and never completed the fourth segment of his Trilogie des Coufontaine. The only indication of the existence of this prospective fourth part of the theatre sequence is a brief entry in his Journal. In 1949, he began writing a third version of his first great work T ê te d'Or. Like the unfinished fourth section that was to be added to the trilogy, the draft of the third version of T ê te d'Or reveals a dialogue between the Old and New Testaments a theme that

appears to be central to Claudel's entire corpus. Genet labored over La Mort for many years. At the conclusion of Saint Genet, com é dien et martyr (1952), Sartre mentions this final work of Genet. Genet discussed his progress on La Mort in correspondence and even published Fragments of La Mort in the literary magazine Les Temps Modernes. While the project never came to fruition, it nevertheless remains an important means through which to understand Genet's work. The aborted production of Fellini's Voyage de G. Mastorna has become a legend. After 8" and Giulietta degli spiriti, Fellini wrote a screenplay that he began to film but subsequently abandoned, much to the chagrin of

producer Dino de Laurentiis who had already invested in sets and costumes. Fellini would often revisit this project, but never completed it. This book also examines additional dream projects taken from different art forms: poetry (Mallarm é s Le Livre); literature (Vignys Daphn é); painting (Monets Nymph é as); music (Schoenbergs Moses und Aron); and various films (Clouzots LEnfer, Viscontis La Recherche, Kubricks Napoleon, etc.).

Studies mid-twentieth-century

New York art and culture, focusing on an innovative, revolutionary period in American cultural development, looking at the work of such figures as Jackson Pollock, Willem de Kooning, Andy Warhol, Joan Mitchell, and other, lesser known artists. Germaine Tillion, Geneviève de Gaulle Anthoinoz, Lucie Aubrac, and Raymond Aubrac were among a small number of French men and women who made the decision to resist early in the Occupation. In the summer of 1940, Marc Bloch analyzed the society in which he lived in order to identify and affirm allegiance to a France

truly at odds with that which was taking shape in Vichy. Bloch died in the Resistance, but his life would take on new meanings in the collective memories of postwar France. Confrontation with the Aubracs' account of their refusal to accept the unacceptable became another important way the French engaged with the Resistance and its legacy. The acts Tillion took during the French-Algerian War and de Gaulle's Anthonioz took when confronted with poverty in the France of the *trentes glorieuses*, were of a piece with the radical nature of their earlier decision to resist.

Evocation of the Resistance provided a basis for France to reconstitute itself with honor after the war. Yet memory of the Resistance could also pose difficult issues for future generations. Those who came of age in 1968 grappled with the memory of the intrepid resisters of the first years of the war, whose decision to resist stood as an inspiration and a challenge. Historians, with the imperative to take the mandate to narrate the past from historical actors, to make resisters figures of history, developed complex relationships with those who had resisted. The essays in this

collection address how resisters made sense of the wartime and postwar world in terms of their resistance, and how others made sense of the Resistance itself and its legacy by engaging with resisters and their histories.

Music in Paris 1917-1929

When Paris Sizzled vividly portrays the City of Light during the fabulous 1920s, les Années folles, when Parisians emerged from the horrors of war to find that a new world greeted them—one that reverberated with the hard metallic clang of the assembly line,

Page 39/46

the roar of automobiles, and the beat of jazz. Mary McAuliffe traces a decade that saw seismic change on almost every front, from art and architecture to music, literature, fashion, entertainment, transportation, and, most notably, behavior. The epicenter of all this creativity, as well as of the era's good times, was Montparnasse, where impoverished artists and writers found colleagues and cafés, and tourists discovered the Paris of their dreams. Major figures on the Paris scene—such as Gertrude Stein, Jean Cocteau, Picasso, Stravinsky, Diaghilev, and Proust—continued to hold sway, while others now came to prominence—including Ernest Hemingway, Coco Chanel, Cole Porter, and Josephine Baker, as

well as André Citroën, Le Corbusier, Man Ray, Sylvia Beach, James Joyce, and the irrepressible Kiki of Montparnasse. Paris of the 1920s unquestionably sizzled. Yet rather than being a decade of unmitigated bliss, les Années folles also saw an undercurrent of despair as well as the rise of ruthless organizations of the extreme right, aimed at annihilating whatever threatened tradition and order—a struggle that would escalate in the years ahead. Through rich illustrations and evocative narrative, Mary McAuliffe brings this vibrant era to life.

Paris. The name alone conjures images of chestnut-lined boulevards, sidewalk cafés, breathtaking façades around

every corner--in short, an exquisite romanticism that has captured the American imagination for as long as there have been Americans. In 1995, Adam Gopnik, his wife, and their infant son left the familiar comforts and hassles of New York City for the urbane glamour of the City of Light. Gopnik is a longtime New Yorker writer, and the magazine has sent its writers to Paris for decades--but his was above all a personal pilgrimage to the place that had for so long been the undisputed capital of everything cultural and beautiful. It was also the opportunity to raise a child who would know what it was to romp in the Luxembourg Gardens, to enjoy a croque monsieur in a Left Bank café --a child (and

perhaps a father, too) who would have a grasp of that Parisian sense of style we Americans find so elusive. So, in the grand tradition of the American abroad, Gopnik walked the paths of the Tuileries, enjoyed philosophical discussions at his local bistro, wrote as violet twilight fell on the arrondissements. Of course, as readers of Gopnik's beloved and award-winning "Paris Journals" in The New Yorker know, there was also the matter of raising a child and carrying on with day-to-day, not-so-fabled life. Evenings with French intellectuals preceded middle-of-the-night baby feedings; afternoons were filled with trips to the Musée d'Orsay and pinball games; weekday leftovers were eaten while three-star chefs

debated a "culinary crisis." As Gopnik describes in this funny and tender book, the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys--both hold new routines, new languages, a new set of rules by which everyday life is lived. With singular wit and insight, Gopnik weaves the magical with the mundane in a wholly delightful, often hilarious look at what it was to be an American family man in Paris at the end of the twentieth century. "We went to Paris for a sentimental reeducation-I did anyway-even though the sentiments we were instructed in were not the ones we were expecting to learn, which I believe is why they call it an education."
