About | Pat
Welsh Organic
and Southern
California
Gardening

Welsh first
touches on the
unique climate
facets of
Southern

Page 26/122

California; she addresses the issue of micro-climates within a climate zone and how this affects one's plans and growing techniques. Not just focusing on how one can prune and

divide
perennials,
Welsh covers
the five types
of soil, soil
additives,
improving
drainage on
lots and
includes
several pages
on manure and
their varying

applications.

Organic and

Page 42/122

Southern
California . . .

Answer from
Pat: I don't
blame you for
wanting to
cover over the
mess of dying
dahlia foliage,
but you are
correct in
thinking that
it's best to

Page 43/122

wait until
foliage dies
down or turns
yellow before
cutting the
stems back and
digging up the
roots. Cutting
back too early
will weaken the
roots and
flowers will
gradually

Page 44/122

deteriorate.
