

Personal Injury Litigation Pracioner Series

In LexisNexis® Practice Guide: New Jersey Personal Injury Litigation, General Editor Barry A. Knopf has assembled a distinguished group of expert authors to provide in-depth procedural and substantive coverage of the causes of action central to New Jersey personal injury practice. Combining a task-based, procedural style with substantive analysis, and practical insight based on years of practice experience, this practice guide is a unique source for the attorney unfamiliar with the practice area, the associate in need of an authoritative source, or the solo or small law firm practitioner needing reliable guidance in managing a personal injury case from the initial interview through trial.

Children and Personal Injury Litigation is a practical and comprehensive handbook which guides the reader through all aspects of personal injury litigation relating to children. Written by a respected and established practitioner in the field, the book takes account of the significant legal developments. These include the Civil Procedure Rules and changes and proposed reforms to the Court of Protection and the Public Trust Office.

The sport of golf is a popular choice for individuals looking to spend their increased free time. Golf is viewed as both a recreational and competitive sport; however, many sports and recreation professionals are not aware of the risks posed by the sport of golf. This lack of awareness creates a false sense of security for professionals and recreational golfers. The risks (e.g. personal injury, property damage, real estate issues, employment concerns, and discrimination) often result in litigation that is costly in both time and money. This litigation can often be prevented through sound risk management practices and programs. Every golf course is a complex business venture with corresponding complex business-related problems. These problems typically include real estate issues, employment matters, premises liability, discrimination, and negligence. Golf and the Law assists golf course managers in avoiding lawsuits and preventing needless personal injury and property damage. The book is divided into two major sections. The first section reviews a number of important legal concepts and relates each concept to the management of a golf course.

The second section specifically outlines common types of litigation that have been aimed at golf courses. Finally, the book outlines a variety of risk management strategies to assist the golf course manager in making the golf course a safe place for participants, employees, and neighbors. "Throughout the work [Sawyer] offers advice on avoiding liability by instituting proper risk management procedures. In extensive appendixes readers will find checklists, sample forms, and other useful information for the golf course manager." -- Legal Information ALERT

Whether you are a sole practitioner or part of a larger firm, someone who specializes in personal injury or has a general practice, this book is for you. The Library of New Jersey Personal Injury Forms is designed and organized so that you can handle a personal injury case from start to finish. The book begins with forms needed after you meet with a new client, and takes you through pre-litigation, pleadings, litigation, trial, settlement, and post-trial. There are also specialty sections for UM/UIM claims and workers' compensation cases. While there may be a situation that requires a letter or pleading that is not included in this book, the more than 380 forms in this book will help in everyday practice. The 8 1/2 x 11" softcover book contains printed versions of each form, and is organized to bring you through your case start to finish on topics that include auto negligence, medical and legal malpractice, premises liability, product defects, recreation and sport related injuries, and workers' compensation.

Winning Your Personal Injury Claim teaches you what to do after you or a loved one has been hurt. It gives you the precise instructions you need to settle with an insurance adjuster, handle the attorney for the other side and win a court battle.

LexisNexis Practice Guide: New Jersey Personal Injury Litigation, 2017 Edition

Courtroom Trauma

Foundational socio-legal study of lawyers in solo and small practice in Chicago in the 1950s and early 1960s, updated with later contributions from 1994 and 2011. Jerome Carlin's LAWYERS ON THEIR OWN is a recognized, foundational study of lawyers in individual practice in an urban setting. It became the template for an important form of social science research into lawyers in solo practice. The first extensive and grounded study of individual practitioners and their candid quotes in interviews, Carlin's book exposed the unique practices, class divides, ethical dilemmas and ultimate resentments of a little-viewed subgroup of attorneys and their clients. This book's findings and research methodology influenced many such studies of attorneys in action that followed it. The author's succinct and supported writing has proved to be an enduring and important study in this field of socio-legal research. Updated with the author's extensive introduction to the second edition, as well as a new foreword by law professor William Gallagher, this modern republication is presented to a new generation of readers and researchers into the daily lives, work, business angles and unique challenges of solo and individual-client law practice. Quality ebook formatting from Quid Pro Books includes linked notes, active Contents, legible tables and graphs, and careful proofreading. In addition, this ebook (and the new edition in paperback) embeds the original pagination from prior editions so that the reader, even of digital formats, has continuity in research, referencing, and classroom assignments.

Anderson's Ohio Personal Injury Litigation Manual 2021 Edition

The Real Stuff: a Compendium of a Dozen Topics Facing the Personal Injury Practitioner Every Day

Seminar Material

Winning Your Personal Injury Claim

Personal Injury Litigation for the General Practitioner

Every practitioner who conducts personal injury litigation will come across cases involving a limitation problem. Actions in respect of personal injuries or death are subject to special rules on limitation periods, which may postpone the date on which the three-year-period starts to run, andconfer a discretion on the court to allow an action to proceed notwithstanding the expiry of the limitation period. The effect of this discretion is that it is always open to a plaintiff, even with a very stale claim, to argue that his action should be permitted. This book provides the practitioner with a comprehensive account of the law on limitation periods in personal injury actions. In particular, it discusses in detail the court's approach to determining a plaintiff's date of knowledge, which is the crucial factor in the commencement of the limitationperiod, and it provides a full analysis of the principles applied to the Courts' exercise of discretion when considering whether to "disapply" the limitation period.

This manual offers guidance on building and managing a personal injury practice. It highlights the tactics, technology and practical tools necessary for a profitable practice, including how to write a sound business plan, develop an accurate financial forecast, and minimize costs.

Got a question about personal injury litigation? Thanks to Anderson's Ohio Personal Injury Litigation Manual, you can track down your answer immediately no matter where you're located. Examining recent legislation, this edition takes practitioners step-by-step through litigation procedure, covering the whole spectrum of personal injury cases and offering essential information on almost every aspect of a case.

Winning Personal Injury Training Guide

Florida Motor Vehicle No-Fault Law

Catastrophic Injuries

Psychological Injuries

A Practical Guide to Compensation

"Children and Personal Injury Litigation is a practical and comprehensive handbook which guides the reader through all aspects of personal injury litigation relating to children. Written by a respected and established practitioner in the field, the book takes account of the significant legal developments. These include the Civil Procedure Rules and changes and proposed reforms to the Court of Protection and the Public Trust Office."

Human emotional suffering has been studied for centuries, but the significance of psychological injuries within legal contexts has only recently been recognized. As the public becomes increasingly aware of the ways in which mental health affects physical - and financial - well-being, psychological injuries comprise a rapidly growing set of personal injury insurance claims. Although the diverse range of problems that people claim to suffer from are serious and often genuine, the largely subjective and unobservable nature of psychological conditions has led to much skepticism about the authenticity of psychological injury claims. Improved assessment methods and research on the economic and physical health consequences of psychological distress has resulted in exponential growth in the litigation related to such conditions. Integrating the history of psychological injuries both from legal and mental health perspectives, this book offers compelling discussions of relevant statutory and case law. Focussing especially on posttraumatic stress disorder, it addresses the current status and empirical limitations of forensic assessments of psychological injuries and alerts readers to common vulnerabilities in expert evidence from mental health professionals. In addition, it also uses the latest empirical research to provide the best forensic methods for assessing both clinical conditions such as posttraumatic stress disorder and for alternative explanations such as malingering. The authors offer state-of-the-art information on early intervention, psychological therapies, and pharmaceutical treatments for posttraumatic stress disorder and stimulating suggestions for further research into this complex phenomenon. A comprehensive guide to psychological injuries, this book will be an indispensable resource for all mental health practitioners, researchers, and legal professionals who work with psychological injuries.

LAWATYOURFINGERTIPS was written to be a practical guide to California Personal Injury Law replacing volumes of books on a shelf and is a handy reference tool for practicing personal injury attorneys. LAWATYOURFINGERTIPS covers premises liability civil procedure, discovery, dog liability, slip and fall, construction accidents, trivial defects, motions and procedures, trial motions and procedures, and more. law. LAWATYOURFINGERTIPS From checklists, summary of the law, sample motions, sample discovery and tested motions and procedures, LAWATYOURFINGERTIPS will be a reference guide for California Personal Injury Law that the practitioner simply can't be without.

This book is intended to assist the personal injury practitioner when considering new enquiries and when handling beauty claims - it is an entry level guide and will be especially useful for practitioners who have not undertaken this work before and are looking to expand their service offering. Part One of the book describes common beauty treatments with a brief explanation as to how they should be performed by a competent practitioner. Key practice notes are provided. This section also addresses the common problems and how to help your client pursue a claim for compensation while avoiding the common pitfalls. Part Two is intended to be a practical guide for practitioners and includes a sample client questionnaire and risk assessment checklist. It also considers patch tests, claims involving children, disclosure and public liability insurance issues. There is also a chapter discussing cosmetic surgery claims. This guide will assist as a useful resource to personal injury practitioners when dealing with beauty negligence claims. ABOUT THE AUTHOR Greg Almond, is a specialist claimant personal injury Solicitor. He is Head of Personal Injury at Aticus Law in Manchester, Wilmslow and London. He has specialised in Personal injury throughout his career as a solicitor. Greg qualified as a solicitor in 2006 and has specialised in Personal Injury for more than 11 years, dealing with high value and niche personal injury claims, often acting for clients who have suffered life changing injuries following serious accidents. Having championed a campaign to highlight the dangers of home hair dye products, Greg met with MPs and posed questions direct to Ministers, resulting in a greater awareness of the potential dangers of some products. Greg continues to campaign for safer cosmetic treatment procedures and products. As a direct result, Greg has become the Solicitor of choice in the UK for clients who have suffered severe reactions following their use of home hair dye products or other more complicated cosmetic procedures that have gone wrong. He has appeared regularly in the National and local press, including the One Show, BBC news and the Times and is a regular go to commentator on this area of the law. Greg has extensive experience in working on behalf of both claimants and defendants. Representing clients on a national basis, Greg and his team are always happy to meet clients at their home or at our offices in Manchester, Cheshire or London. Greg is a Council member of Manchester Law Society and he is a member of the Association of Personal Injury Lawyers.
