

# Photographing Headshots Techniques For Lighting And Posing The Close Up

Headshots are images that include the subject's head and shoulders; are big business for photographers. These types of images are needed by individuals from all walks of life; from business tycoons to actors and models. While most clients who book portrait sessions want images that...

## Photographing Headshots Techniques For Lighting

6. Lighting and positioning. For business and actors' headshots, I tend to light quite evenly. There are a few circumstances when the images are low-key, but for the main part, they are evenly lit. A classic beauty lighting setup works well, with one light above, and a second light, or a reflector filling from below.

## 10 Tips for Photographing Great Headshots

I am truly enjoying reading Photographing Headshots: Techniques for Lighting and Posing the Close-Up for so many reasons. It is my first book from Gary Hughes and I truly enjoy his teaching skills and writing style. This is an area of my studios that has really picked up like I never imaged and I am really thankful for it.
