Jul 19, 2017 - Explore tlbteach's board "Animal Adaptations" on Pinterest. See more ideas about Animal adaptations, Science lessons and 4th grade science.

46 Best Animal Adaptations images | Animal adaptations ...

A commonly seen animal adaptation is that animals have adapted to eating foods that other animals do not. Animals living in the same habitat compete for food. But the adaptation of eating a less commonly consumed food lessens this competition and strikes a balance in nature. # An interesting form of animal adaptation is hibernation.
