Use Jumpchart to quickly plan out the navigation of your site by adding pages, and sub-pages. If you change your mind, easily drag pages to new spots within the site hierarchy. There is no better way to organize the content for your website. 13.

**Website Planning & Developing Your Website Blueprint**

Like a website...but naked. If there were a blueprint for a website, this is what it would look like. Navigate to every page, manage the metas and titles. See the bones of your website plan before you push your first pixel.

**Website Planning and Organization Tool » Jumpchart**

Make sure your site fits the screen. Use responsive design (or an equally effective approach) to make your website one that adapts to all screen sizes. Keep your website light so that it loads quickly. Make the company logo and tag line prominent on the page. Keep styles and colors consistent across the website.
