A complete guide to Left Hand Jazz Piano Techniques, with almost 500 musical examples. Covering a span of time and styles ranging from jazz beginnings to some of the most recent developments, this book collects and analyzes many of the most frequently used jazz, blues, and Latin jazz left-hand piano techniques. Generally, each proposed technique is first introduced by a "model" figure derived from original sources, followed by an explanation of its pattern, and finally by some sample applications using well-known songs, harmonic progressions, or original pieces. For the sake of completeness, most of these left-hand applications are integrated with sample right-hand parts that validate the efficacy and concrete application of the left hand figures.

This collection showcases the syncopated piano music of Latin American during the nineteenth and early twentieth centuries. It features Latin rhythms, which are really African rhythms brought to the Americas by slaves and applied to the music of the European colonists. These rhythms are varied and complex and so is their history. They've had a widespread and profound influence on the evolution of popular music not only in Latin America, but also in the United States. The most obvious offshoots are the tango in Argentina and Uruguay and most of the other popular dances of South and Central America, as well as ragtime and jazz in the United States. Jelly Roll Morton claimed this Latin tinge is the essential element that distinguishes jazz from ragtime. These rhythms are the musical roots of groups like the Buena Vista Social Club. Includes historic tangos written by Ignacio Cervantes - Cuba, Manuel Saumell - Cuba, Juan Morel Campos - Puerto Rico, Jose Quinton - Puerto Rico, Ernesto Nazareth - Brazil, Tomas Leon - Mexico, Sebastian Yradier - Spain, Eduardo Sanchez du Fuentes - Cuba, Will Tyers - USA, Vincente Greco - Argentina, Anselmo Rosendo (Mendizabal) - Argentina, Angel Villoldo - Argentina, Eduardo Arolas - Argentina, Juan Maglio - Argentina
