Page 54/67

While many flyfishermen will find and purchase their favorite fly rod, there are those who desire to go a step further. For those discerning flyfishermen and women, simply buying a rod is not

Page 55/67

enough—they must build one. And just as fly fishing is an art, so is the creation of the bamboo fly rod. Many people believe that the best-feeling rods, particularly for trout fishing, are made from

Page 56/67

bamboo, and today's bamboo rod-making tradition is particularly indebted to one man: Everett E. Garrison. Using principles he learned as an engineering student, Garrison

Page 57/67

created an exacting method of building rod—a method that for decades was a well-kept secret. These techniques are presented to the reader in *A Master's Guide to Building a Bamboo Fly Rod*, a classic
