My neighbor has an MTD snowblower with the Powermore OHV 208cc engine. It starts then begins "hunting" until you load it with snow. Then it smooths out. The carb does not have the fixed jet in the bowl bolt.

## **Snowblower Forum : Snow Blower Forums - Powermore OHV ...**

I just had the same problem with MTD 179cc Powermore engine on a single stage snowblower and here is what worked for me. Remove carb bowl, check float, needle and seat to make sure float stops fuel flow at correct height. Float set level with carb body is fine. Next remove the main jet and emulsion tube.

These engines will be exclusively distributed and serviced by Cub Cadet under the Powermore® engine brand. Powermore® engines are a premium small block engine with advantages that in many cases are better than competitive engine models. Some of the premium features include: Overhead Valves (OHV) Cast iron cylinder sleeve; Dual element air cleaner

### **Cub Cadet Branded Engines - Powermore® Engines**

Hello hemlo. Unfortunately, most engines appearing on snow blowers now are Chinese made Honda clones. I don't believe Powermore has any service manuals available, and Honda only offers them for purchase and will not freely share the information. I agree with Paul, the carb will need to be cleaned or replaced if cleaning fails.
