Fault Finding | DJT Electrical  
Training

In fault finding, time is of the essence,

*Page 21/84*

*practical-electronic-fault-finding-and-troubleshooting*

for a number of reasons: The electronic system may play a part in keeping your work colleagues safe. While it is faulty, their safety must not be compromised. It may be an expensive piece of equipment.

## Fault Finding - Matrix TSL

Candidates on the electronic fault finding training course use a range of circuit boards to explore the function of the various electronic components. Some of these also have switched faults. To help the candidates gain more

experience of using the oscilloscopes we then introduce a fairly simple circuit that generates a range of different frequencies from 1MHz to 1Hz.
