

Pretty Venom

Reproduction of the original: Venoms by A. Calmette

I thought he'd always be mine, even when I was forced to say goodbye. We were never meant to let go, but it happened anyway. Too bad I didn't know someone was waiting to take my place, or I would've held on a lot tighter. Two years later, we were exactly where we'd always planned to be. I'd kept my promise. He'd forgotten all about his. Not only had he moved on, but the person he'd moved on with was my best friend, leaving me to begin college with a broken heart. I guess this is the part where I'm supposed to tell you some other guy stepped in, repaired my shattered pieces, and made me smile again. This isn't that kind of story. My heart might have been broken, but it refused to fall out of love.

When the Red Queen was unwed, she fainted from the shock.When I woke up from the hospital, there were no reporters, no media, no flashlights. Only her son, and. The father of a child that had fallen from the sky? As the CEO of the largest entertainment company in the world, Sikong Ting was surrounded by famous ladies all day long. However, no one knew that all he wanted to do was to get into bed with a woman. That damned woman who gave birth to his son! Lu Baobei: "Why are you here again?" Sikong Ting said, "Good girl, it's very late, quickly come and sleep together with us." Lu Baobei: "Go. I don't need today." Sikong Ting: "— Can you take care of my needs?"

Venoms, venomous animals and antivenomous serum-therapeutics

Roald Dahl's Marvellous Medicine

Venom Epic Collection

Collects Venom #1-5. America...meet your newest Hero! The lethal alien symbiote known as Venom is in the custody of the U.S. military ...and with a familiar face from Spider-Man's world inside the suit, the government's own personal Spidey is going into action as one of the nation's top covert agents in hostile territory!

TV presenter Steve Backshall needs no introduction following his performances on TV series such as Deadly 60 and Lost Land of ... This is a reformatted, redesigned edition of a popular title. Poison is an everyday part of the animal world, and an essential tool for hunting and defence. A wide variety of insects, reptiles and amphibians use toxins to subdue their prey or to stop becoming prey to another predator. Even some mammals and birds resort to poison as a means of securing a meal or deterring attack! From species such as the King Cobra, Lionfish, Fat-tail Scorpion and Poison Dart-frog to the diminutive but lethal Black Widow Spider, the author takes a fascinating look at the different types of natural venoms. On a tour of the world's continents, he looks at over 60 of the most venomous creatures, describing their main characteristics and explaining how they administer their venom and what its effects are: Stunning colour photographs and exciting accounts of Steve's own encounters with some of these animals bring the world of natural venom alive.

Vincent 'Venom' Jones, former Navy SEAL sniper, left the Navy after a Taliban kill resulted in collateral damage—the death of a child. Out of the military, and unsure of his future, he' recruited by Hank Patterson and Jake Coghun of the Brotherhood Protectors. He accepts the position on one condition...he refuses to protect children. At her former Army buddy's insistence, Maria Elena left her boyfriend, drug cartel boss Diablo, in the Texas border town of El Paso and escaped to Colorado. All she wants is a chance for her and her daughter to start over, free of the cartel and her daughter's abusive father. Only the cartel boss doesn't let go of what he considers his. When Venom rescues a pretty woman and her child from an attempted kidnapping on his first day in Fool's Gold, he can't turn his back and let someone else protect them. Against his better judgment, he takes the assignment to provide their protection where their lives and his heart are at risk of total destruction.

Twisted Venom

Poison-X

Tryst Six Venom

From Wall Street Journal bestseller Parker S. Huntington comes a broken love story laced with angst and forbidden romance.I wasn't supposed to be on that roof on Valentine's Day.Neither was Kellan Marchetti, the school's designated freak.We met on the verge of ending our lives.Somehow, the tattered strings of our tragedies tangled and tightened into an unlikely bond.We decided not to take the plunge and agreed to check on each other every Valentine's Day until school ended. Same time. One roof. Two restless souls. We kept our promise for three years. On the fourth, Kellan made a decision, and I was left to deal with the consequences. Just when I thought our story ended, another one began. They say all love stories look the same and taste different. Mine was venomous, disgraceful, and written in scarlet scars. My name is Charlotte Richards, but you can call me Venom.

Grace, Gretchen and Greer are three teenage descendants of Medusa who must unite and embrace their fates in a world where monsters lurk in plain sight. The triplets are now reunited, but their battle against the monsters of the abyss rages on. And as if training to become fully-fledged huntresses weren't enough, the boys in their lives are causing them problems. Is Nick all he seems? And where's Thane? Grace is sure he's hiding something from her. As the girls discover more about their heritage, they find themselves in greater danger than ever. Can they face up to the sacrifices they must make in order to fulfil their destiny? The second book in the high-concept urban fantasy YA series.

Steve Irwin meets David Attenborough in this jaw-dropping account of studying the world's most venomous creatures. Venomologist Bryan Grieg Fry has one of the most dangerous jobs on earth: he works with its deadliest creatures. He's been bitten by twenty-six venomous snakes, been stung by three stingrays, and survived a near-fatal scorpion sting while deep in the Amazon jungle. He's received more than four hundred stitches and broken twenty-three bones, including breaking his back in three places. And he had to learn how to walk again. But when you research only the venom you yourself have collected, the adventures—and danger—never stop. Imagine a three-week-long first date in Siberia catching venomous water shrews with the daughter of a Russian war hero; a wedding attended by Eastern European prime ministers and their machine-gun-wielding bodyguards and snakes; or leading a team to Antarctica that results in the discovery of four new species of venomous octopi. Bryan's discoveries have radically reshaped views on venom evolution and contributed to the creation of venom-based life-saving medications. In pursuit of venom, he has traveled the world collecting samples from Indonesia to Mexico, Germany, and Brazil. He's encountered venomous creatures of all kinds, including the Malaysian king cobra, the Komodo dragon, and the funnel-web spider. Bryan recounts his lifelong passion for studying the world's most venomous creatures in this outlandish, captivating memoir, where he and danger are never far apart.

The Secrets of Nature's Deadliest Weapon

Venom stars in tales of violence and vengeance! When the video game "Carnage Unleashed" becomes a hit, it provides the psychopathic Cletus Kasady with the opportunity to gain his freedom -and renew his sadistic reign of terror on the streets! The only way to stop a bad symbiote? A good(ish) symbiote! Blood will flow as Venom takes on Carnage! Then, when killer vigilante Sin-Eater strikes, Eddie Brock's ex-wife is caught in the crossfire. To survive, must she become the bride of Venom? Plus, Spider-Man and the Scarlet Spider must stand by Eddie's side when an alien invasion threatens to turn Earth into the Planet of the Symbiotes!

Venom by Rick Remender Vol. 1

Joint Volumes of Papers Presented to the Legislative Council and Legislative Assembly

Volume 5

A Journey into the Mysterious System That Keeps You Alive

Venoms

All the Year Round was a weekly Victorian journal specializing in literature published throughout the United Kingdom. All the Year Round was created and edited by Charles Dickens and featured many of his famous novels including A Tale of Two Cities as well as other Victorian literary achievements. This particular installment is from December 14, 1867 to June 6, 1868, and includes No. 451 to No. 476.

Venom brings readers face to face with some of the most dangerous creatures on the planet, including jellyfish, snakes, and wasps, as it uncovers the story of venom. The book explores how venom is used for predation, defense, competition, and communication by an incredible diversity of species. It examines the unique methods that these species have evolved to create and deliver their deadly toxins. The book traces venom back to its origin in early jellyfish and sea anemones, and reveals how venoms have evolved dozens of times independently all across the animal kingdom since that time. And finally, it examines the relationships between these dangerous creatures and humans. Humans have not only learned to live with them, but also to benefit from them: scientists increasingly are harnessing the power of venom to create new drugs, treatments, and anti-venoms.

What kind of assassin works pro bono? It's hard to be a badass assassin when a giant is beating the crap out of you. Luckily, I never let pride get in the way of my work. My current mission is personal: annihilate Mab Monroe, the Fire elemental who murdered my family. Which means protecting my identity, even if I have to conceal my powerful Stone and Ice magic when I need it most. To the public, I'm Gin Blanco, owner of Ashland's best barbecue joint. To my friends, I'm the Spider, retired assassin. I still do favors on the side. Like riding a vampire friend of her oversized stalker—Mab's right-hand gnom who almost got me dead with his massive fists. At least irresistible Owen Grayson is on my side. The man knows too much about me, but I'll take my chances. Then there's Detective Bria Coolidge, one of Ashland's finest. Until recently, I thought my baby sister was dead. She probably thinks the same about me. Little does she know, I'm a cold-blooded killer . . . who is about to save her life.

Lethal Protector

A Best Friend's Brother Romance

The Journal of the Australasian Branches of the British Medical Association

Box-Set: Band 1-3

Darling Venom

In Renaissance Venice, orphaned Cassandra Caravello is one of the elite but feels trapped until she stumbles upon a murdered woman and is drawn into a world of courtesans, grave robbers, and secret societies, guided by Falco.

Most people know Roald Dahl as a famous writer of children's books and adult short stories, but few are aware of his fascination with medicine. Right from his earliest days to the end of his life, Dahl was intrigued by what doctors do, and why they do it. During his lifetime, he and his family suffered some terrible medical tragedies: Dahl nearly died when his fighter plane went down in World War II; his son had severe brain injury in an accident; and his daughter died of measles infection of the brain. But he also had some medical triumphs: he dragged himself back to health after the plane crash, despite a skull fracture, back injuries, and blindness; he was responsible for inventing a medical device (the Waide-Dahl-Till valve) to treat his son's hydrocephalus (water on the brain), and he taught his first wife Patricia to talk again after a devastating stroke. His medical interactions clearly influenced some of his writing - for example the explosive poisons in George's Marvellous Medicine. And sometimes his writing impacted on events in his life - for example the research on neuroanatomy he did for his short story William and Mary later helped him design the valve for treating hydrocephalus. In this unique book, Professor Tom Solomon, who looked after Dahl towards the end of his life, examines Dahl's fascination with medicine. Taking examples from Dahl's life, and illustrated with excerpts from his writing, the book uses Dahl's medical interactions as a starting point to explore some extraordinary areas of medical science. Solomon is an award-winning science communicator, and he effortlessly explains the medical concepts underpinning the stories, in language that everyone can understand. The book is also peppered with anecdotes from Dahl's late night hospital discussions with Solomon, which give new insights into this remarkable man's thinking as his life came to an end.

Disgraced journalist Eddie Brock bonds with Spidey's old alien suit to become Venom - a malevolent creature driven on by one overwhelming desire - to kill Spider-Man.

The Edgiest, Darkest, Strangest Natural History Memoir Ever

Sweet Venom

A Venom Dark and Sweet

Australasian Medical Gazette

Collects X-Men Blue #21-22 and Annual #1, and Venom (2016) #162-163. Spinning out of the events of VENOMVERSE, the Children of the Atom and the Lethal Protector team up to take down an extradimensional threat! This is it, folks, the team-up you've been asking for: X-Men Blue and Venom must band together in the cold reaches of space to protect our universe from a threat more diabolical than you can ever imagine! But will Eddie Brock and his faithful symbiote, Marvel Girl, Cyclops, Iceman, Beast and Angel be enough to save the universe from the Poisons? It's a crossover like no other — one that will change the lives of Venom and the X-Men!

Meet Grace, who just moved to San Francisco. It's a tiny bit scary starting over, but it gets scarier when a minotaur walks in the door. And even more shocking when a girl who looks exactly like Grace turns up to fight it. . . Gretchen is fed up of monsters pulling her out into the small hours, especially on a school night. Getting rid of a minotaur is just another notch on her combat belt, but she never expected to run into a girl who could be her double in the process. . . Greer has her life pretty well put together, thank you very much. But everything tilts sideways when two girls who look eerily like her appear on her doorstep and claim they're all sisters. . . These three teen descendants of Medusa must reunite and embrace their fates!

Die gesamte Gray-Springs-University-Serie in einem Band Band 1: Suddenly Forbidden Ich dachte, er würde für immer zu mir gehören, selbst als wir gezwungen waren uns zu trennen. Wir hätten einander festhalten sollen, aber es ist trotzdem passiert. Schade, dass ich nicht ahnte, dass jemand anderes nur darauf wartete, meinen Platz einzunehmen. Sonst hätte ich niemals losgelassen. Zwei Jahre später sind wir genau dort, wo wir geplant hatten zu sein. Ich habe mein Versprechen gehalten. Er hat es einfach vergessen. Er hat nicht nur jemand neuen gefunden, sondern diese Neue ist meine ehemalige beste Freundin. Und ich beginne das College mit gebrochenem Herzen. Wahrscheinlich sollte jetzt der Part kommen, in dem ich euch erzähle, wie ein anderer toller Typ auftaucht und die Scherben meines Lebens aufammelt und wieder zusammensetzt. Einer, der mich wieder zum Lachen bringt. Aber das hier ist nicht diese Art von Geschichte. Mein Herz mag gebrochen sein. Aber es weigert sich, ihn nicht mehr zu lieben. Band 2: Bittersweet Always Toby Hawthorne war ein Mysterium. Ein Rätsel, das nicht Teil meiner Pläne fürs College war. Ich war nicht auf der Suche nach Liebe. Aber ich war auch nicht nicht auf der Suche nach Liebe. Und an diesem Ort, zwischen allen Stühlen, fand er mich. Ich hatte keine Ahnung von den Kämpfen, die er jeden Tagen austrug, und verliebte mich Hals über Kopf. Als ich es herausfand, war es zu spät. Weil ich alles wollte. Jedes zerbrochene verlorene Teil von ihm. Ich wusste, dass ich ihn nicht heilen konnte. Ich konnte ihn nur lieben. Aber ich hätte wissen müssen, dass Liebe nicht genug ist. Band 3: Pretty Venom Callum Welsh hatte die Kunst, mich zu hassen, bereits perfektioniert, als wir noch Kinder waren und dachten unsere Eltern würden uns früher oder später aus wirtschaftlichen Gründen gemeinsam vor den Traualtar zwingen. Er dachte, mir würde es gefallen, aber ich habe mir nur gewünscht, dass er mich in Ruhe lässt. Bis er mir eines Nachmittags meinen ersten Kuss stahl. Und trotz allem, was bis dahin geschehen war, war danach nichts mehr wie zuvor. Mit den Jahren schmolz das Eis um unsere Herzen und er hasste mich nicht mehr. Er liebte mich sogar genug um mich zu heiraten. Bis ich einen dämlichen Fehler machte und alles ruinierte. Der Hass kam zurück. Mit bösen Worten und noch schlimmeren Taten. Aber wir waren keine Kinder mehr. Ich konnte sein Gift ertragen. Er würde wieder zu mir gehören, selbst wenn es mich die Reste meines gebrochenen Herzens kosten würde.

Heart of Venom

Immune

Sweet Shadows

Carnage Unleashed

Steve Backshall's Venom

Callum Welsh perfected the art of hating me when we were two kids who believed we'd be forced into marriage. He thought I wanted it, but my only wish had been for him to leave me alone. Then one afternoon, he stole my first kiss. Despite all he'd done, everything changed after that. As the years passed, our hearts thawed, and he no longer hated me. In fact, he loved me enough to make me his wife. Until I ruined everything with one stupid mistake. That hatred returned in the form of cruel words and even crueler deeds. But we weren't kids anymore. I could handle his brand of venom. He would be mine again, even if it cost me the remains of my heart. Warning: contains cheating and an anti-hero who might make you throw your kindle.

Uncover the crazed and illustrious mind of the original symbiote anti-hero in this lavishly presented collection of Venom's most heroic, villainous, and somewhat killer moments from his comic book history. ?In this book, you'll get in to the mind - or minds - of Venom: eat, save, kill, repeat! Hero or villain? Psychotic or vulnerable? Does anything make sense to a ravenous symbiote from outer space?! Witness the fears, the loves, the scruples, and the pure hunger that drives the popular anti-hero with a look at his favourite moments, best friends, worst enemies, epic comic action, and awesome cover art! It's everything you need to know about your new-favourite anti-hero. Is that the sound of a sonic wave bursting from the page? No, it's the Philosophy of Venom!

DigiCat Publishing presents to you this special edition of "Antidote to Venom" by Freeman Wilks Crofts. DigiCat Publishing considers every written word to be a legacy of humankind. Venom Unleashed Vol. 1

An Investigation of Venomous Snakes with Special Reference to the Phenomena of Their Venoms

Venom

Carnage Institution of Washington Publication

Gray Springs University

The enthralling conclusion to Judy I. Lin's Book of Tea duology—#1 New York Times bestseller A Magic Steeped in Poison and A Venom Dark and Sweet—is sure to enchant fans of Adrienne Young and Leigh Bardugo. A great evil has come to the kingdom of Dàxi. The Banished Prince has returned to seize power, his rise to the dragon throne aided by the mass poisonings that have kept the people bound in fear and distrust. Ning, a young but powerful shénrǒng-shi—a wielder of magic using the ancient and delicate art of tea-making—has escorted Princess Zhen into exile. Joining them is the princess' loyal bodyguard, Ruyi, and Ning's newly healed sister, Shu. Together the four young women travel throughout the kingdom in search of allies to help oust the invaders and take back Zhen's rightful throne. But the golden serpent still haunts Ning's nightmares with visions of war and bloodshed. An evil far more ancient than the petty conflicts of men has awoken, and all the magic in the land may not be enough to stop it from consuming the world...

Includes various department reports and reports of commissions. Cf. Gregory. Serial publications of foreign governments, 1815-1931.

When young internist Claudia Ranelli attends a medical conference in San Francisco, she has a sexual encounter so bizarre and frightful it nearly kills her. But that isn't the end of her terror. Claudia and her cousin Dru Salinas must discover the identity of the person terrorizing them both, a quest that leads from pit vipers to modern genetics. Claudia tells a gripping story with sensitivity, a humanly scientific perspective, eroticism and a wry sense of humor.

NEW YORK TIMES BESTSELLER • A gorgeously illustrated deep dive into the immune system that will forever change how you think about your body, from the creator of the popular science YouTube channel Kurzgesagt—in a Nutshell! “Through wonderful analogies and a genius for clarifying complex ideas, Immune is a truly brilliant introduction to the human body’s vast system for fighting infections and other threats.”—John Green, #1 New York Times bestselling author of The Fault in Our Stars You wake up and feel a tickle in your throat. Your head hurts. You’re mildly annoyed as you get the kids ready for school and dress for work yourself. Meanwhile, an epic war is being fought, just below your skin. Millions are fighting and dying for you to be able to complain as you head out the door. But most of us never really stop to ask: What even is our immune system? Second only to the human brain in its complexity, it is one of the oldest and most critical facets of life on Earth. Without it, you would die within days. In Immune, Philipp Dettmer, the brains behind the most popular science channel on YouTube, takes readers on a journey through the fortress of the human body and its defenses. There is a constant battle of staggering scale raging within us, full of stories of invasion, strategy, defeat, and noble self-sacrifice. In fact, in the time you’ve been reading this, your immune system has probably identified and eradicated a cancer cell that started to grow in your body. Each chapter delves into an element of the immune system, including defenses like antibodies and inflammation as well as threats like bacteria, allergies, and cancer, as Dettmer reveals why boosting your immune system is actually nonsense, how parasites sneak their way past your body’s defenses, how viruses work, and what goes on in your wounds when you cut yourself. Enlivened by engaging full-color graphics and immersive descriptions, Immune turns one of the most intricate, interconnected, and confusing subjects—immunology—into a gripping adventure through an astonishing alien landscape. Immune is a vital and remarkably fun crash course in what is arguably, and increasingly, the most important system in the body.
