Programming the BeagleBone Black: Getting Started with ...
The Next Step To Learn BeagleBone Black. This was a quick and easy guide to get an insight into the BeagleBone black and how you can get started. The next step I did, and which I recommend you do, is to read a quickstart book on the BeagleBone Black. The book Getting Started With BeagleBone might be what you need:

BeagleBone Black Getting Started Guide
Getting Started With BeagleBone Black: After using Arduino for a while, I decided to try Beaglebone Black. Seeing the lack of content on Instructables, and having some difficulty getting started myself, I wanted to help other people get set up with BeagleBone Black.

Getting Started With BeagleBone Black : 11 Steps ...
In this video I will show you, step by step how to build and run your first program on BeagleBone Black: Blink the LED var b= require("bonescript"); var stat...

BeagleBone Black - blink the LED program demo - step by step

Enable a network connection. If connected via USB, a network adapter should show up on your computer. Your Beagle should be running a DHCP server that will provide your computer with an IP address of either 192.168.7.1 or 192.168.6.1, depending on the type of USB network adapter supported by your computer's operating system.

Ben tries out the Beagle Bone Black and shows you what he learns along the way. He shows how to get it set up, three ways to connect to it, and tries out a cool LCD cape. By the time he's done ...

Getting Started with the Beagle Bone Black

Not all boards are as easy as the Beaglebone Black to get up and running with JTAG. After getting the connector installed, the next step is to hook up the port to your emulator. Be sure that if you are purchasing a new JTAG emulator just for this project that you order one that is compatible with the cTI 20-pin JTAG connector.
